1982 Northern Affairs Community Reports

March, 1983

MANITOBA
DEPARTMENT OF NORTHERN AFFAIRS

1982 Northern Affairs Community Reports

Northern Affairs Community Reports, first published in 1981 by the Department of Northern Affairs, have been developed for the purpose of providing residents with a tool which would allow them to participate more fully in the development of their community. In addition, the reports will enable the Department of Northern Affairs and other government and private agencies to assist communities with their development plans.

Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. Some information about adjacent Indian Reserves is also provided.

An important feature of this edition is the incorporation of the June, 1982 population census data of Northern Affairs communities into the reports. Detailed census data is also available in a separate report which may be obtained by writing to the Department of Northern Affairs.

I invite anyone who wishes further information on any subject contained in this publication, or on any other matter related to the development of these communities to contact the Manitoba Department of Northern Affairs.

Your interest in northern Manitoba is welcomed.

HONOURABLE JAY COWAN

Addendum
1982 Community Report

Results of Community Elections Held in February, 1983

Elected officials in communities under the jurisdiction of the Department of Northern Affairs hold office for two years. Elections are rotated so that half of the communities hold elections each year. Elections are held in February of each year.

The 1983 elections were held after these Community Reports were prepared.

Therefore, some of the mayors or chairmen may have changed from those reported in the Community Reports which follow. In order to keep the names of these officials as current as possible, the following list has been prepared which gives the results of the February elections.

A tie vote has occurred in Manigotogan and the successful candidate cannot be announced at this time.

Two changes have also occurred in the management of Northern Affairs Regional Offices:

— Mr. Len Charles, formerly Regional Director of the Dauphin Office is now Regional Director of The Pas; and

— Mr. Alex Campbell, formerly Regional Director of The Pas Office is now Regional Director of the Dauphin Office.

MANITOBA
DEPARTMENT OF NORTHERN AFFAIRS

Anama Bay
1982 Community Report

Two closely related and adjoining, but independent communities are Anama Bay and Dauphin River. Dauphin River is located on the Dauphin River Reserve while Anama Bay is on Crown Land. The reserve community is under the jurisdiction of the Federal Government's Department of Indian Affairs and Northern Development, and Anama Bay is under the jurisdiction of the Department of Northern Affairs. Anama Bay had a population of 47 and Dauphin River a population of 84 in 1982. Each has its own system of local government. All information in this report is for the non-Treaty community unless otherwise stated.

These communities are located on Sturgeon Bay, Lake Winnipeg, at the mouth of the Dauphin River. The settlement is 3 miles long and the main portion is on the north bank of the Dauphin River. Inter-community roads run through Anama Bay to join up with an all-weather road (P.R. #513) which runs to Gypsumville. There are three docks, two on the north side and one on the south side, as well as a 3,000 ft. airstrip. Anama Bay is located approximately 378 kilometers north of Winnipeg, 465 kilometers south-east of The Pas and 72 kilometers north of Gypsumville.

Economic activity in Anama Bay is based on commercial fishing, trapping and the local service sector. There is a mine at Gypsumville, but few of the residents are employed there. Anama Bay is located on the Gypsumville R.T.L. There is a fish hatchery which employs a few residents.

Anama Bay has been represented since March 24, 1970 by a Chairman and Local Advisory Committee under Manitoba's Northern Affairs Act. The Reserve community is governed by an elected Chief and Councillors, making up the Little Saskatchewan Band Council.

Recreation Facilities

There is one community hall with a capacity of 150. It is mainly used for dances, meetings, bingos, etc. There is also a children's playground, a skating rink, and a ball field.

Local, Provincial, Federal Gov't. Services

Fire Protection: The community has a fire hall, which is under construction, a trailor, and related equipment.

Police Services: The community is serviced by the R.C.M.P. from Gypsumville.

Ambulance Services: Ambulance service is supplied from Ashern.

Hospital/Nursing Station: The hospital is also located in Ashern. There is a nursing station in Gypsumville.

Schools

There is a school located on the Dauphin River Reserve. A teaching staff of 3 teach students from Kindergarten through Grade 7.

Enrollment is as follows:

Grades	No. of Students
Kindergarten	2
Grade 1	3
2	3
3	6
4	3
5	7
6	1
7	1
Total:	26

Utilities

Hydro: Served by line-hydro power with 56 hook-ups. Residential power rates per month: Service Charge $8.00; first 250 kwh .05¢/kwh; additional power 2.53¢/kwh.

Telephone: There is a toll station telephone system with 5 hook-ups.

Water Supply: The water in the community is obtained from locally drilled wells and is untreated.

Sewage Disposal: Seven homes in the community have their own septic field. The other three use outdoor privies.

Garbage Disposal: There is an unattended garbage dump, built one year ago, two miles from the community. This dump serves both the community and the Dauphin River Reserve.

Housing

There are 11 homes in the community.

Transportation/ Accommodation

There is bus service from Winnipeg to Gypsumville twice a day. Air service is by charter. The Dauphin River has several docks and is used as an internal transport system by residents. There are cabins located in Anama Bay.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources.

Prepared by Department of Northern Affairs Development Services Branch.

MANITOBA
DEPARTMENT OF NORTHERN AFFAIRS

Barrows, Westgate, Red Deer Lake, National Mills

1982 Community Report

These communities are located along or adjacent to a 15 mile section of P.R. #277 west of Mafeking on the northern edge of the Porcupine Provincial Forest and near the Saskatchewan-Manitoba boundary. Barrows, with a population of 188 in 1982 in the largest community and provides some services to the area. It is also site of the Frontier school which serves the other communities as well. Red Deer Lake is situated 5 miles north on the shores of the lake with the same name and is connected to Barrows by a gravel road.

Barrows originated in the late 19th century when the Red Deer Lake sawmill was in operation. This mill was closed in 1927 and since that time several sawmills have operated for short periods of time. The area is heavily forested and forest harvesting continues to provide some employment for the residents. Fishing on Lake Winnipegosis and Red Deer Lake and trapping in the Porcupine and Red Deer-Shoal River R.T.L. zones are primary sources of employment. Trappers from a number of communities trap in these zones. In 1980-81 8 fishermen produced 64,030 lbs. of fish valued at $59,469. The soils of the area also have potential for agricultural development.

Barrows has been governed since 1969 by an elected mayor and council under Manitoba's Northern Affairs Act. Each of the remaining communities is served by a Chairman and Local Advisory Committee.

Recreation Facilities

Westgate, National Mills, Barrows and Red Deer Lake have community halls. All communities have outdoor rinks and the Barrows school has a gymnasium. Barrows and Red Deer Lake each have a local park and playground, and Red Deer Lake has a beach area.

Local, Prov., Federal, Government Services

Fire Protection: Barrows has a fire hall, a truck, an emergency vehicle, 2 portable pumps, fire extinguishers, smoke detectors, and backpacks. There is a siren on the hall. Some members have pagers which are called by a base station in emergencies. National Mills has a fire hall, a portable pump, and fire extinguishers. There is a siren on the hall. Red Deer Lake has a portable pump. Westgate has a portable pump, Red Deer Lake and Westgate are serviced by Barrows.

Police Protection: Barrows has a community council appointed police constable who also serves the other communities. The R.C.M.P. provide service from Swan River.

Ambulance Service: Provided to all communities from Swan River. There is an emergency vehicle in Barrows to transport patients, and to meet the ambulance from Swan River.

Hospital/Nursing Station: Hospital service is available in Swan River.

Utilities

Hydro: All the communities have land line hydro power with 95 hook-ups. Residential power rates per month: Service Charge $4.10; first 200 kwh 4.74¢/kwh; additional power 2.53¢/kwh.

Telephone: Land line with 69 hook-ups.

Water Supply: The basic sources of water for all communities are local wells with the exception of Red Deer Lake where chlorinated water is delivered to a community storage tank. An intake line has recently been installed in Barrows, and two subdivisions are now serviced with a piped water supply.

Sewage Disposal: All communities are primarily dependent on pit privies.

Garbage Disposal: Each of the communities has a garbage pit and/or disposal area.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Ressources.

MANITOBA
DEPARTMENT OF NORTHERN AFFAIRS

Berens River

1982 Community Report

Two closely related and adjoining, but independent communities are known as Berens River. One is located on the Berens River Indian Reserve. The second on nearby Provincial Crown Land. The Reserve community is under the jurisdiction of the Federal Government's Department of Indian Affairs and Northern Development, the second is under the jurisdiction of the Department of Northern Affairs. The two communities with a combined population of 1,007 people are inter-dependent on each other for some services. Each has its own system of local government and community council budget. All information in this report is for the non-Treaty community unless otherwise stated.

These communities along the eastern shore of Lake Winnipeg at the mouth of the Berens River are about 292 kilometers by air north of Winnipeg. The area is within the Precambrian Shield region of Manitoba with a large part quite flat and well forested with the exception of rock outcroppings and marshes. There are no land transportation systems to the communities with the exception of winter roads in the winter. During the summer various barges and ferries provide surface transportation. Perimeter Air Ltd. provides daily transportation services using a 3500' gravelled airstrip and terminal building. Docking for float plane service is also available.

Economic activity includes fishing, trapping and forestry. Abitibi Pulp and Paper Co. Ltd. has timber rights to most of the area and has a logging contract with the locally organized Crown Corporation "Channel Area Loggers Ltd." for supply of pulpwood to their mill at Pine Falls.

This operation produces 15-20,000 cords of pulpwood annually and employs 15-20 men. The company was temporarily closed in the spring of 1982 due to the depressed forest industry, but re-opened in the late fall of 1982. In 1980-81, 63 fishermen produced 841,645 lbs. of fish valued at $623,160. Trapping in the area is organized under the Berens River R.T.L. zone.

The non-Reserve portion of Berens River has been governed since June, 1970 by an elected mayor and council under Manitoba's Northern Affairs Act.

Commercial and Other	74.5
School Levies - Special Division (Mills):	
Frontier (#48)	29.6
Business Tax:	10%

Local, Prov., Federal, Government Services

Fire Protection: There is a fire hall under construction with a truck expected in the near future. There is also related equipment.

Police Services: The community is served by the R.C.M.P. located within the community supplemented with a community council appointed constable.

Ambulance Service: Patient Air Transportation.

Hospital/Nursing Station: Supplied from the Reserve.

Schools

Frontier School Division maintains a school in the community staffed by 1 principal, 19 teachers, 4 aides and 8 support staff, teaching 326 students from pre-school through Grade 12 from both communities. Numbers of students attending are as follows:

Grade	No. of Students
Pre-school	47
Grades 1-6	200
Grades 7-9	65
Grades 9-12	14
Total:	326

Utilities

Hydro: Diesel electric plant maintained by Manitoba Hydro, supplying 15 amp-120 volt power to 206 hook-ups. Residential power rates per month: Service Charge - $8.00; first 250 kwh - 5¢/kwh; addition power - 2.53¢/kwh.

Telephone: Land line with dial phones and 176 connections in the two communities.

Water Supply: There are two basic water systems in the community, one serving residents on the north side of the river and one serving the south side. Water for both is pumped from Lake Winnipeg, chlorinated, filtered and pressurized to stand-pipes. This year there is a new standpipe on the south side. Plans are underway to extend the water line to homes in the new subdivision on the south side. The Reserve has an independent water system.

Sewage Disposal: Private residential disposal by pit-privy. Frontier School employs a septic field disposal system.

Garbage Disposal: There is one existing dump.

Housing

There are approximately 45 households in the community.

Transportation/ Accommodation

Winter roads and lake boats in the summer are the only surface transportation systems to the community. There are daily scheduled air flights by Perimeter Aviation Ltd. using the 3,500' gravelled airstrip and terminal building. Local taxi service, overnight accommodation and restaurant service are available.

Recreational Facilities

There is one community hall with a capacity for 50 people, in poor condition, used as office space and storage of fire equipment. Other facilities include a skating rink, a ball diamond, a local park, playground, and a beach area. Plans are in effect for a new hall in 1982.

Big Black River

1982 Community Report

Big Black River, a community with a population of 506 residents in 1982 is located at the mouth of the Mukatawa River on the east shore of Lake Winnipeg, approximately 25 kilometers north of the Poplar River Indian Reserve. While there are no roads into the community, air service is available by charter, and there is a barge service operating on Lake Winnipeg in summer. The community is 371 kilometers north of Winnipeg and within the Precambrian Shield region of Manitoba.

Fishing and trapping are the major economic activities in the area. Approximately 34 fishermen from the communities of Big Black River, Poplar River, and Negginan delivered approximately 565,115 lbs. of fish with a value of $368,541 to the Big Black River Co-op in 1980-81. Nine whitefish boats were in operation and the remainder were largely pickeral fishermen. The Co-op also operates a grocery and drygoods store serving the community. Big Black River is located in the Poplar River R.T.L. zone. Fifty-nine trappers from this zone produced $89,808 worth of fur in 1979-80.

The community has been represented since November, 1972 by a Chairman and local advisory committee under Manitoba's Northern Affairs Act.

Recreational Facilities

There is a new community hall which will accommodate 60 people and is used for dances, bingos, meetings, etc.

Local, Prov., Federal, Government Services

Fire Protection: The community has portable pumps and a small log building for storage. The fire department is active.

Police Services: The community is serviced by the R.C.M.P. in Norway House.

Ambulance Service: Patient Air Transportation (P.A.T.)

Hospital/Nursing Station: None. The nearest hospital is at Norway House.

Schools

Frontier School Division maintains a school in the community with one teacher, acting as principal, and two support staff teaching classes from Grades 1 through 9 as follows:

Grades	No. of Students
Preschool	1
1-6	6
7-9	4
Total:	11

Transportation/ Accommodation

There are no roads on or into the community, only trails. Charter air service by float plane is possible with planes landing on Mukatawa River. Barge service is also available in summer. There is no overnight accommodation.

Utilities

Hydro: Diesel electric.

Telephone: Radio Telephone. Toll Station - 244-9998.

Water Supply: Water is obtained from lake or river by individual residents.

Sewage Disposal: Pit privies.

Garbage Disposal: Two garbage dumps, one on each side of the river, are being constructed, and are expected to be completed in the late fall of 1982.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources.

Sources of Income in Addition to Trapping and Fishing

Several people find part-time employment in the Big Black River Co-op as fish packers or clerks in the store. Frontier School employs two people. The Big Black River Pulp Co. started by Donald Batenchuk has discontinued operations.

Housing

There are approximately 7 households in the community.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which will allow them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. New development can now build on this base.

DEPARTMENT OF NORTHERN AFFAIRS

Bissett

1982 Community Report

Bissett, a community with a population of 304 residents in 1982, originated as the service centre to the San Antonio gold mine, which started production in 1943. Between this date and 1968 when the mine was closed as being uneconomic, some 200 employees produced 1,190,378 troy ounces of gold and 192,205 troy ounces of silver from 4.5 million tons of ore. The recent increases in the price of gold have resulted in the mine being reopened in 1981. Other small gold mines, now closed, are within the area and are also being reviewed.

The present economic activities in the area are forestry and tourism. The community is located on PTH 304 about 130 miles north and east of Winnipeg. This highway has now been extended into the new provincial Nopiming Park and Wallace Lake, some 20 miles to the east and southward through the Park to the Bird River Road. The area which this highway traverses is a major new recreation area and Bissett is one of the two major entry points.

Forested areas surrounding the community are included in provincial forestry management unit no. 34. Substantial harvesting is done in the area with the wood being delivered to the Abitibi paper plant at Pine Falls.

Commercial fishing is not a large contributor to the economy. Trapping is largely confined to registered traplines in the Hole River and Lac Du Bonnet R.T.L. areas. Large amounts of wild rice are also produced in the general area.

Bissett is served by the landlines of Manitoba Hydro and the Manitoba Telephone System. Since October 25, 1972, the community has been represented by a Chairman and Local Advisory Committee under the Manitoba Northern Affairs Act.

Housing

There are approximately 82 households in the community.

Local, Prov., Federal, Government Services

Fire Protection: There is a newly renovated fire hall with a siren, a brand new truck, and related equipment.

Police Services: R.C.M.P. are located within the community.

Ambulance Service: Service is available in the community. The nearest hospital is at Pine Falls.

Nursing Station: Located in community.

Schools

Frontier School Division maintains a school in the community with 1 principal, 1 teacher, and 3 support staff. Enrollment is as follows:

Grades	No. of Students
Pre-school	5
1-6	18
7-9	5
Total -	28

Transportation/ Accommodation

There is a 5000' gravelled airstrip and float planes can also land on nearby Rice Lake. Overnight accommodations and food service is available at the Hotel San Antonio.

Utilities

Hydro: Land line hydro power with 81 hook-ups for light and power only, and an additional 19 connections for light, power and heat. Residential rates per month: Service Charge $4.10, first 200 kwh - 4.74¢/kwh; additional power 2.53¢/kwh.

Telephone: Land line with dial phones - 140 hook-ups.

Water Supply: Pumped from Rice Lake and chlorinated. Line distribution to East Bissett. An updating of the pumphouse, with water service extended to West Bissett is a suggested project for 1982. A new lake control structure is underway.

Sewage Disposal: Estimated 1 acre garbage pit built last year. Weekly pickup service by half ton truck from approximately 42 homes.

Recreation Facilities

The community has one hall in good condition, with a capacity for 150 people, used for bingos, dances, meetings, etc. There is also an outdoor rink, a ball field, a local park, a playground, a beach area and a gymnasium.

DEPARTMENT OF NORTHERN AFFAIRS

Brochet

1982 Community Report

Two closely related and adjoining but independent communities are known as Brochet. One is located on the Barrenlands Indian Reserve on the north end of Reindeer Lake, the other is on nearby Provincial Crown Land. Both are approximately 121 kilometers by air north of Lynn Lake. The Reserve community is under the jurisdiction of the Federal Government's Department of Indian Affairs and Northern Development, the second is under the jurisdiction of the Department of Northern Affairs. The two communities are interdependent on each other for some services, notably commercial services and economic development. Each has its own form of local government and community budget. All information in this report is for the non-treaty community unless otherwise stated.

There is approximately two miles of internal roads, including a road to the airstrip which is about one mile from the townsite. There are no all-weather road or rail transportation systems to the community. Lynn Lake is the nearest commercial centre, 122 kilometers by air to the south. An all-weather road connects Lynn Lake to Co-op Point on Reindeer Lake in Saskatchewan. In summer, materials are barged from this point to Brochet. There is a 5,000' airstrip with terminal building adjacent to the community as well as docking facilities for float planes. Scheduled air service is provided.

Economic activity in the Brochet area is based on commercial fishing and trapping. In 1980-81, 59 fishermen delivered 319,306 lbs. of fish valued at $154,622. In 1979-80, 75 trappers delivered fur valued at $83,796 from the Brochet R.T.L. zone. Forest resource developments are unlikely because of high transportation costs to pulp mills. Tourist development is also severely limited by distance.

The non-Treaty portion of the community of Brochet has been governed since May, 1972 by an elected mayor and council under Manitoba's Northern Affairs Act.

Part of the Barrenlands Indian Band moved to Lac Brochet, 70 kilometers further north and a new Reserve was established there in 1980.

Business Tax:	10%

Housing

There are approximately 48 households in the community.

Local, Prov., Federal, Government Services

Fire Protection: There is a fire hall, a tanker, a tractor, fire extinguishers, smoke detectors, and related equipment. The fire department is active.

Police Protection: A council appointed community constable and itinerant R.C.M.P. service from Lynn Lake. The community has a 2-cell detention centre.

Ambulance Service: Patient Air Transportation (P.A.T.) from Lynn Lake.

Hospital/Nursing Station: Nursing station has 6 beds and is staffed by three nurses. Hospital service is available at Lynn Lake.

Schools

Both communities are served Frontier School which employs 1 principal, 11 teachers, 2 teacher-aides, and 4 support staff to teach students from pre-school through Grade 9. Enrollment is as follows:

Grades	No. of Students
Pre-school	37
1-6	143
7-9	23
Total:	203

Utilities

Hydro: 15 ampere diesel electric with 108 residential connections. Residential power rates per month: Service Charge $8.00; first 250 kwh - .05¢/kwh; additional power - 2.53¢/kwh.

Telephone: Radio Phone.

Water Supply: Source from Reindeer Lake by surface intake line, pumphouse with 4 standpipes distributed in community. Nursing Station, R.C. Mission, R.C.M.P., The Bay store and school serviced by running water. The remainder of the residents obtain their water from the standpipes. The water is chlorinated and regular tests taken. Pumphouse heated and system managed by Brochet Water Committee consisting of Brochet Community Council, D.I.A.N.D. and Frontier School.

Sewage Disposal: Those facilities with running water have indoor bathrooms with septic tanks emptied into a lagoon. Otherwise residents use outdoor pit privies.

Garbage Disposal: New garbage disposal grounds constructed in 1980 with twice weekly garbage pickup contracted by Community Council.

Recreational Facilities

There are two community halls in the joint communities, each with a capacity of 200 people. One of the halls is in good condition and one in poor condition. A poolroom is located in one and the other is used for socials, movies, court, etc. There is also an outdoor rink and playground facilities and gymnasium at the school.

Transportation/ Accommodation

Basic transportation is by charter or scheduled air service. Overnight accommodation may be arranged with some of the residents.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which allows them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. New development can now build on this base.

DEPARTMENT OF NORTHERN AFFAIRS

Camperville

1982 Community Report

Camperville, a community with a population of 639 people in 1982 is located on the west shore of Lake Winnipegosis, 68 miles north of Dauphin on PTH No. 20. It is bordered on the north by the Pine Creek Indian Reserve, a community of 429 people and the comunity of Duck Bay is 10 miles to the north. Houses and farms are scattered throughout the Camperville area.

The community has been represented since May 28, 1970 by a Mayor and Council under Manitoba's Northern Affairs Act.

Manitoba Hydro has 238 residential power connections in the community and surrounding area.

The assessed value of taxable real property in the community is $119,630 and grants-in-lieu of taxes are paid on a non-taxable property assessment of $220,460.

Economic activity includes fishing and trapping. In 1980-81, 14 fishermen delivered 438,931 lbs. of fish valued at $119,854. Camperville is on the southern edge of the registered trapline zone and most of the trapping area accessible to local trappers is "open" territory. Commercial and government services are important sources of employment in the community.

Recreation Facilities

A new community hall with a capacity to hold 162 people has been built recently. There is also a baseball diamond, beach, poolroom, swimming, boating, fishing, a local park, a gymnasium at the school, and participation in recreation complex on Pine Creek Reserve.

Utilities

Hydro: Land line power with 109 homes connected for light and power only and an additional 129 connected for light, power and heat making a total 238 residential connections. Residential power rates per month: Service Charge $4.10; first 200 kwh - 4.74¢/kwh, additional power 2.53¢/kwh for 195 of the hook-ups; and Service Charge $8.00; first 250 kwh - 5.00¢/kwh, additional power 2.53¢/kwh for the remaining 43 hook-ups. Some of these connections will be outside the community proper.

Telephone: Land line with dial phones. M.T.S. has a combined total of 385 connections between Duck Bay and Camperville, an increase from the 270 hook-ups of last year. The division of connections between the two communities probably approximates a 60-40 split with Camperville having the most.

Water Supply: Water is pumped from Lake Winnipegosis into a 14,000,000 gallon reservoir. Water is chlorinated and distributed to the community by three methods - water line, manual pickup from standpipe and trucked delivery from standpipe. Quality of water is satisfactory. A new pumphouse has been constructed and the waterline is being extended. At present 56 homes, the elderly persons home, laundromat, and school are connected to the water distribution system. There are 163 households in the community. Annual operating and maintenance costs are estimated to be $10,000.

Sewage Disposal: The homes and other places noted above as being connected to the waterline are also served by a low pressure sewage system which empties into a lagoon south of the built-up area. The remainder of the homes depend on pit privies for disposal.

Garbage Disposal: A garbage dump consists of a fenced area 300 feet by 400 feet in size. In addition there is a 20' x 30' burning area also fenced. Once a week garbage pickup by truck is contracted out by Council to a private individual.

Local, Prov., Federal, Government Services

Fire Protection: The community leases the hall. There is a truck and related equipment. The town foreman is also the fire chief.

Police Services: The R.C.M.P. provide services from Winnipegosis.

Ambulance Service: Ambulance service is supplied from Winnipegosis, 25 miles to the south, and from Swan River.

Hospital/Nursing Station: None. Doctors, nurses and hospital available at Winnipegosis.

Housing

There are approximately 163 households in the community. Taxable real property assessment is $119,630.

Schools

The Duck Mountain School Division maintains a school in the community. A teaching staff of 8 teach students from kindergarten through to Grade 6. Enrollment is as follows:

Grade	No. of Students
Kindergarten	9
Grade 1	18
2	18
3	18
4	15
5	10
6	13
Total:	101

Transportation/ Accommodation

There is bus service to the community daily. There is no accommodation within the community at the present time.

Sources of Information

Source data for these Reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources.

Cormorant
1982 Community Report

Cormorant, a community with a population of 451 people in 1982, is located in the west central portion of Manitoba on the east shore of Cormorant Lake, 48 kilometers northeast of The Pas. The C.N.R. Bayline passes through the community and the town-site is located next to the railway bridge over the Narrows which connects Cormorant Lake with Little Cormorant Lake. The main section of the community is situated on a point along the north shore of the Narrows. The rest of the community stretches along the south shore. Travel between the two parts of the community is by water, the C.N.R. bridge and a single lane timber bridge constructed by the community in 1976. Provincial Road #287 provides access to The Pas and P.T.H. #10.

Cormorant lies within a relatively flat marshy region which is part of the Paleozoic geologic zone of Manitoba. To the west and surrounding Cormorant Lake is the Cormorant Forest Reserve, while the remaining forests are within Manfor's logging area. Present and potential economic activity is based on commercial fishing, trapping, forestry and tourism as well as the local service sector. Potential mineral reserves are also found within 50 miles of the community. In 1980-81, 2 operators delivered 295,037 pounds of fish valued at $117,451. In 1979-80, 26 trappers caught fur with a value of $35,867 from the Cormorant R.T.L. zone. Cormorant Lodge caters to sports fishermen on the lake and a number of residents provide guiding services to the lodge.

Cormorant has been governed since early 1971 by an elected Mayor and Council under Manitoba's Northern Affairs Act.

Local, Prov., Federal, Government Services

Fire Protection: There is a fire hall, a new fire truck, a portable pump, and related equipment. The community also possesses breathing apparatus.

Police Services: The community council employs one local police constable. The R.C.M.P. also provide service from The Pas.

Ambulance Service: Provided from The Pas.

Hospital/Nursing Station: Nursing station staffed by one L.P. nurse. Doctor visits once every two weeks.

Schools

Frontier School Division maintains a school in the community with 1 principal, 9 teachers, 1 teacher-aide, and 5 support staff teach students from pre-school through Grade 9. Numbers of students are as follows:

Grades	No. of Students
Pre-school	29
1 - 6	94
7 - 9	29
Total:	152

Recreation Facilities

There is one community hall with a capacity for 140 people, used for bingos, socials and meetings. There is also an outdoor rink, parks, playgrounds, beaches, ball field, and a gymnasium at the school.

Utilities

Hydro: Land line hydro power with 111 residential connections, 67 of which are for heat, light and power. Residential power rates per month: Service Charge $4.10; first 200 kwh - 4.74¢/kwh; additional power 2.53¢/kwh.

Telephone: Land line service with 83 dial phones connected.

Water Supply: Water source is a well with a stand pipe. Water is pumped from stand pipe to two pumphouses where it is chlorinated. There are 10 individual wells in community. Frontier School and approximately 14 houses are now hooked up to water line. Council is responsible for operating and maintenance with funding from Northern Affairs.

Sewage Disposal: Sewage lagoon installed by Frontier School. There are some holding tanks in the community pumped out by the Council owned septic truck every 10 days. The remainder of the homes use pit privies. A community lagoon is to be constructed in 1982-83.

Garbage Collection: There is regular bulk garbage pickup and delivery to the garbage dump located four miles north-west of the community.

Housing

There are approximately 85 households in the community.

Transportation/ Accommodation

Cormorant is connected to The Pas by the all-weather provincial road #287. Rail service is provided three times weekly. Taxi service, overnight accommodation and restaurant service is available.

Crane River

1982 Community Report

Two closely related and adjoining, but independent communities are known as Crane River. One is located in the Crane River Indian Reserve. The second is on nearby Crown Land. The reserve community is under the jurisdiction of the Federal Government's Department of Indian Affairs and Northern Development, the second is under the jurisdiction of the Department of Northern Affairs. The two communities with a combined population of 449 in 1982, are inter-dependent on each other for some services, notably commercial services and economic development. Each has its own system of local government and community council budget. All information in this report is for the non-treaty community unless otherwise stated.

These communities are located on the west shore of the north end of Lake Manitoba. All-weather road access is provided by Provincial Road #276 from Ste. Rose du Lac to Toutes Aide and by P.R. #481 from Toutes Aide to Crane River. Ste. Rose du Lac is situated 56 kilometers south of these communities, Dauphin is about 120 kilometers by road to the west and Winnipeg 320 kilometers to the south-east.

Economic activity in the Crane River area centres on commercial fishing, farming, livestock and the local service sector. A sewing factory employs as many as 14 trainees, a manager and a clerk. Crane River Housing employs approximately 10 people.

The terrain is primarily made up of mixed farm land - woodland. There ar no forestry operations at present. Most commercial fishing is conducted during the winter. In 1980-81 33 fishermen produced 189,574 pounds of fish valued at $163,710. There is a private fish handling facility in the community. Crane River is on the western edge of the Crane River R.T.L. zone, some trapping is conducted in the adjacent "open" areas.

Crane River has been governed since May, 1969 by an elected Mayor and Council under Manitoba's Northern Affairs Act.

Business Tax:	10%

Local, Prov., Federal, Government Services

Fire Protection: There is a fire hall, an old truck, and related equipment. A new fire truck is expected in the near future.

Police Protection: The community has a Community Council appointed police constable. His activities are supplemented by the R.C.M.P. detachment at Ste. Rose du Lac.

Ambulance Service: Provided from Waterhen.

Hospital/Nursing Station: None — The nearest doctor and hospital are at Ste. Rose du Lac.

Schools

The community is served by a Frontier School with 1 principal, 7 teachers, 2 teacher-aides, and 4 support staff teaching 153 students from pre-school through Grade 9. Numbers of students attending are as follows:

Grades	No. of Students
Pre-school	31
1 - 6	89
7 - 9	33
Total:	153

Utilities

Hydro: Land line hydro power with 120 residential connections of which 75 are for heat, light and power. Residential power rates per month: Service Charge $8.00; first 250 kwh - 5.00¢/kwh; additional power 2.53¢/kwh.

Telephone: Land line with dial telephones served from the Rorketon exchange.

Water Supply: Chlorinated and filtered water supply to two standpipes from double reservoir. Waterline serves homes in subdivision, school and elderly persons home. Recently the reservoir has been enlarged, and a new pumphouse has been built. A water and sewer-line extension south toward the hall is planned for this year.

Sewage Disposal: Low pressure sewage system from homes in subdivision and school to two cell sewage lagoon. Other residences use pit privies.

Garbage Disposal: A new 400' x 400' fenced dump with burning area was constructed in 1980.

Housing

There are approximately 85 households in the community.

Recreation Facilities

The community has one hall in good condition with a capacity for 200 people, used for weddings, bingos, dances, etc. Other facilities include an outdoor rink, ball diamond, a half mile racetrack, a local park, a playground, and a gymnasium at the school.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources. Prepared by Department of Northern Affairs Development Services Branch.

Transportation/ Accommodation

The community has local taxi service. There is a restaurant but no overnight accommodation.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which will allow them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. New development can now build on this base.

MANITOBA
DEPARTMENT OF NORTHERN AFFAIRS

Cross Lake
1982 Community Report

Two closely related and adjoining, but independent communities are known as Cross Lake. One is located on the Cross Lake Indian Reserve. The second is on nearby Provincial Crown Land. The Reserve community is under the jurisdiction of the Federal Government's Department of Indian Affairs, the second under the jurisdiction of the Department of Northern Affairs. The two communities, with a combined population of 2,293* are interdependent on each other for some services, notably commercial services and economic development. Each has its own system of local government and community council budget. All information in this report is for the non-Treaty community unless otherwise stated.

These communities are located near the centre of Manitoba, 520 kilometers by air north of Winnipeg, 120 kilometers south of Thompson and 72 kilometers north of Norway House and on the shores of the Nelson River where it enters Cross Lake. Manitoba Hydro's Jenpeg power dam and Lake Winnipeg control structure have been built about 15 kilometers upstream from the communities. There is an all-weather road, with the exception of a 400 ft. river channel, crossed by barge and ice road.

Present economic activity includes fishing, trapping, the Pi-Mi-Chi-Ko-Mac sawmill which employs 10 people, and the local service industry. Small deposits of lithium and copper exist in the immediate area but are not believed to be economically viable. Forest resources are substantial and could potentially be marketed at the pulp plant in The Pas. In 1980-81 9 commercial fishermen delivered 164,056 pounds of fish valued at $96,621. In the 1979-80 season, 211 trappers caught fur with a value of $261,542 in the Cross Lake R.T.L. zone.

The non-reserve portion of Cross Lake with a population of 455 has been governed by elected Mayor and Council since September, 1970 under Manitoba's Northern Affairs Act.

Housing

Figures not available.

Utilities

Hydro: Landline hydro power with 473 hook-ups in the two communities of which 110 are for heat, light and power. Residential power rates per month: Service Charge $4.10; first 200 kwh - 4.74¢/kwh; additional power 2.53¢/kwh.

Telephone: Land line with 463 dial phones in the two communities, an increase from the 307 hook-ups of last year.

Water Supply: Chlorinated and filtered from submerged floating intake in Cross Lake. Distribution line heat traced to standpipe building (approx. 1700 ft.). Daily consumption 8-10,000 gallons. System in operation about 5 years. Nursing station, Hudson's Bay and six homes supplied directly from line. R.C.M.P. facilities and motel/restaurant being connected. Standpipe little used as truck delivery system in operation to remaining homes. Additional homes may be connected to system. Water quality meets requirements but excessive suspended particles create cloudy appearance. Council through Northern Affairs responsible for O and M. Piped water and sewer services are being installed in the community.

Garbage Disposal: Sanitary landfill site of about 3 acres developed adjacent to lagoon in 1978, fenced with seasonal burning. Serves both communities and commercial establishments and is overtaxed at present.

Sewage Disposal: One cell, 500,000 gallon sewage lagoon located approx. 4 miles from community constructed in 1978 serves those homes connected to system as well as motel. Pumpout services are provided on a fee for service basis. Council responsible for O & M, with funding from Department. Piped water and sewer services are being installed in the community.

Local, Provincial & Federal Gov't Services

Fire Protection: The community has a new fire hall with a siren, a truck, and breathing apparatus. A water delivery truck is also stored in the hall. The Fire Department is active.

Ambulance Service: Ambulance service is provided by the Cross Lake Reserve Community.

Police Protection: The R.C.M.P. have two officers stationed in the community and their efforts are supplemented by a council appointed community constable. The R.C.M.P. are expected to locate a detachment in the community in 1982-83. (4 new housing units)

Hospital/Nursing Station: A nursing station with 4 beds and served by 4 nurses and 1 doctor is located within the community. The nearest hospital is at Norway House.

Schools

There is no school in the non-Treaty community. A Frontier School is currently under construction and is scheduled to open on January 1, 1983. Non-treaty students attend 3 of the 5 reserve schools to Grade 9, with a total teaching staff of 41 (this is **all** schools combined). Numbers of students attending are as follows:

Grades	No. of Students
Pre-school	116
1-6	488
7-9	147
Total	751

Recreation Facilities

The community has a hall accommodating 150 people which was renovated in 1980. It is used for dances, bingos, meetings, etc. There is also an outdoor skating rink, a local park, a playground, a beach area, and a gym at the school. A new arena complex is under construction, with an expected seating capacity of 576.

Transportation/ Accommodation

The communities are served by a 3,000 ft. gravelled airstrip and terminal building. Motel, restaurant and taxi service are available. A cable ferry is being installed to connect an all-weather road to the community, thus providing longer hours of service.

Sources of Information

Easterville

1982 Community Report

The Community of Easterville has grown up near the Chemahawin Indian Reserve Community of the same name. Both are located on the south shore of Cedar Lake, 25 air miles and 62 miles by road west of Grand Rapids. Road access is provided by Provincial Roads 327 and 327A which allow residents to move east to PTH No. 6 and Grand Rapids or Winnipeg, or west to PTH No. 10 and The Pas.

Both communities were relocated to this site in 1962-63 as the result of flooding of the Shore line of Cedar Lake caused by the construction of a Hydro dam on the Saskatchewan River where it enters Lake Winnipeg at Grand Rapids. The population of the two communities at present is 583 with 349 being Treaty Indians and 234 in the non-Treaty community.

The most important economic activity is fishing. In 1980-81 77 fishermen took 1,809,247 lbs. of fish from Cedar Lake and Lake Winnipeg worth $1,192,193, all species. Trapping is also important with the entire area organized into registered trapline zones.

The two communities are inter-dependent on each other for some services, notably commercial services. All information given in this report is for the non-Treaty community unless otherwise stated.

Business Tax:	10%

Recreation Facilities

The Community has one hall in fair condition with a capacity for 300 people. There is also an outdoor rink, a playground, and a gymnasium at the school.

Local Services

Fire Protection: The community has a fire hall, a tanker/trailor, and related equipment.

Police Services: The community employs one police constable. In addition, the R.C.M.P. provide services from Grand Rapids. The community has a 2-cell detention centre.

Ambulance Service: Ambulance Service is provided from The Pas via local taxi.

Hospital/Nursing Station: One nurse is employed.

Schools

The Department of Indian Affairs school on the Reserve is used by the community. A teaching staff of 12 teach students from pre-school through grade 12. Enrollment is as follows:

Grades	No. of Students
Pre-school	17
1 - 6	167
7 - 9	51
10 - 12	12
Total -	247

Housing

There are approximately 45 households. Taxable real property assessment in the community is $60,020. Manitoba Hydro has 144 residential hook-ups to their power lines in the two communities.

Utilities

Hydro: Land line hydro power with 125 homes hooked up for light only and an additional 19 hook-ups for light, power and heat (total for both communities). Residential power rates per month - service charge $4.10; first 200 kwh - 4.74¢/kwh; additional power 2.53¢/kwh.

Telephone: Land line with dial phones, 102 hook-ups, in both communities.

Water Supply: Pumphouse with stand pipe from well. Nursing station and school have piped running water. Remainder of community obtains water manually from pumphouse. Water chlorinated and checked regularly. Pumphouse heated by electric heat with propane gas backup.

Sewage Disposal: Nursing station, Co-op store manager's house, nursing residence and school have septic tanks, other residences have outdoor toilets with pails. Sanitation employees pump out septic tanks and empty toilet pails on regular basis.

Garbage Disposal: New garbage disposal grounds constructed in 1980-81 fiscal year for disposal of both garbage and sewage. Council maintains two wagons, one equipped with tank for liquid waste, pulled by a tractor to pick up garbage and sewage on a bi-weekly basis. The garbage dump is to be fenced in 1982-83.

Transportation/ Accommodation

Buses travelling north and south on Highway 6 provide transportation as needed. A flag stop is located at Easterville Junction on Highway 6. Local taxi service is available.

Gods Lake Narrows

1982 Community Report

Two closely related and adjoining, but independent communities are known as Gods Lake Narrows. One, with a population of 918 in 1982 is located on the Gods Lake Narrows Indian Reserve; the other with a population of 110 is located on nearby Provincial Crown Land. The first is under the jurisdiction of the Federal Government's Department of Indian Affairs and Northern Development, the second is supported by the Provincial Department of Northern Affairs. The two communities are interdependent on each other for some services, notably commercial services and economic development. Each has its own form of local government and community budget. All information in this report is for the non-Treaty community unless otherwise stated.

Both communities are located along the lakeshore of the Narrows of Gods Lake, 225 kilometers south-east of Thompson and 547 kilometers north-east of Winnipeg. The only access to the outside is by air or by winter-road.

Gods Lake lies within the Precambrian Shield region which is dotted with many small lakes and heavily forested. Fishing and trapping are the major economic activities. In 1980-81 32 fishermen delivered 245,174 lbs. of fish valued at $111,504. A fish packing station is located in the community. In 1979-80 109 trappers caught fur valued at $134,363 in the Gods Lake R.T.L. zone.

God's Lake Narrows has been represented since June 22, 1976 by a Chairperson and Local Advisory Committee under Manitoba's Northern Affairs Act. The members of the Local Advisory Committee act in an advisory and consultative capacity to the Minister of Northern Affairs.

Recreation Facilities

There is a community hall with a capacity of 75, used as a billiard hall, for meetings, and as a court room. Swimming in the lake, and an outdoor skating rink.

Utilities

Hydro: A diesel plant provides electrical power for 209 hook-ups in the two communities. Residential power rates per month: Service charge $8.00; first 250 kwh - .05¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with dial phones, there are 114 hook-ups in the two communities.

Water Supply: Comes from Gods Lake by submerged intake line to pumphouse with standpipe. Water is chlorinated and filtered, distribution line heat traces to second standpipe. Water is of high quality. Lodge, Bay residences, Forestry residences, Nursing Station, R.C.M.P. and two houses are hooked up to water line. Other homes use standpipes, with exception of one using lake water. Community water operator to be appointed for daily routine maintenance. Northern Affairs responsible for major repairs.

Sewage Disposal: Buildings connected to water line have septic fields, others use pit privies. The emptying of septic fields is the responsibility of the home-owners.

Garbage Disposal: Garbage dump built the summer of 1980, fenced burning area 40 ft. x 50 ft. with pit for burning refuse. There is a separate solid waste metal disposal area. Pick-up service commenced in October, 1980 with privately owned truck, operator to be responsible for maintenance of disposal area, with community committee supervision. Pit to be dug on grounds for disposal of septic tank sludge.

Local, Prov., Federal, Gov't Services

Fire Protection: The community has a new fire hall, a tanker, a tractor, and related equipment.

Police Protection: The R.C.M.P. are located within the community.

Ambulance Service: Patient Air Transportation (P.A.T.).

Hospital/Nursing Station: A nursing station equipped with 4 beds and 1 crib, staffed with 1 Community Health Representative and 2 nurses. A doctor visits the community every Thursday plus alternate Fridays. A dentist visits the school twice a year.

Schools

There is one school on the Reserve funded by the Federal Government and serving both communities, Nursery School to Grade 11. There are facilities for home economics and boys' shops. Staff housing is provided. Children from the Metis community are taken by boat or skidoo to the school on the mainland. There is a teaching staff of 20. Enrollment is as follows:

Grades	No. of Students
Pre-school	58
1 - 6	184
7 - 9	55
10 - 11	22
Total:	319

Transportation/ Accommodation

The community is served by a 5,000 ft. clay runway - 12 flights per week from Thompson. A local charter service is available. There is one lodge and five cabins with a total of 26 beds providing overnight accommodation. Docking facilities are also available. Perimeter Airlines (Inland) Ltd. provide scheduled air service as well.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Dept. of Indian Affairs, and the Dept. of Natural Resources.

Granville Lake

1982 Community Report

Granville Lake, a community of 90 people is located on a peninsula on the south shore of Granville Lake which is part of the Churchill River system. Many of the residents are members of the Mathias Colomb Indian band at Pukatawagan. The mining community of Leaf Rapids, 42 kilometers to the north-east is accessible by water via the Churchill River. There are no all-weather roads into the community. Goods are moved into the community by winter road from Lynn Lake or by air or water transportation systems.

The community lies within the Precambrian Shield region of Manitoba which is characterized as a region of granitic and gneissic rocks overlaid with a thin muskeg cover. There are many lakes making the area suitable for fishing, hunting and recreation. The local economy is based on commercial fishing and trapping. In 1980-81 9 fishermen delivered 119,511 lbs. of fish valued at $61,487. In 1979-80 trappers in the Pukatawagan R.T.L. zone produced fur valued at $209,758. Additional employment is available at the Sherrit-Gordon mines at Fox Lake, Lynn Lake, and Leaf Rapids. Most of the productive forest land is in young growth.

The community of Granville Lake has been represented since August 10, 1971 by a Chairman and Local Advisory Committee under Manitoba's Northern Affairs Act.

Housing

There are approximately 18 households in the community.

Local, Prov., Federal Government Services

Fire Protection: The community has fire extinguishers, and a storage building.

Police Protection: The R.C.M.P. provide service from Leaf Rapids.

Ambulance Service: Patient Air Transportation from Leaf Rapids.

Hospital/Nursing Station: Patients requiring hospitalization are transferred to Leaf Rapids. There is health aid assistance in the community.

Transportation/ Accommodation

There is no all-weather road or rail access to the community and no airstrip. There is float plane service at the dock. Most travel now is to Leaf Rapids by skidoo in winter and by boat in summer. There is no overnight accommodation.

Recreation Facilities

There is a community hall with a capacity of 100 people, the hall is in good condition. It could be used for movies, socials, etc. As well there is an outdoor skating rink.

Utilities

Hydro: Diesel electric power with 12 hook-ups. Residential power rates per month: Service charge $8.00; first 250 kwh - .05¢/kwh; additional power 2.53¢/kwh.

Telephone: Toll station with 3 hook-ups.

Water Supply: From Granville Lake by surface intake line, pumphouse and one standpipe. Chlorinated and tested regularly. Pumphouse and standpipe heated by propane. These facilities, managed by the Community Committee, serve 100 people.

Sewage Disposal: There is no sewage system and most residences use pit privies.

Garbage Disposal: At present an incomplete site is being used.

DEPARTMENT OF NORTHERN AFFAIRS

Harwill - Dallas/Red Rose - Fisher Bay

1982 Community Report

These communities are located near the northern boundaries of the Peguis and Fisher River Indian Reserves, which are located about 215 kilometers north of Winnipeg. Provincial Road #224 passes through the Reserves and connects with P.T.H.'s #16 and #68 and #7 to provide access to southern communities. Major trading centres serving the area include Ashern, 72 kilometers to the west; Hodgson on the southern edge of the Peguis Reserve; and Fisher Branch, 46 kilometers further south. Dallas, located between the Reserves, has a store which serves both. Additional stores and service centres are located on the Reserves.

Economic activity is based on farming, trapping and ranching. Some residents of Fisher Bay engage in commercial fishing on Lake Winnipeg. (In 1980-81, 16 fishermen working out of Dallas/Red Rose delivered 221,597 lbs. of fish with a value of $147,629.) Potential may exist for expanded livestock production. The local service sector provides some employment. All the communities mentioned are located in an open trapping area which also provides some income.

These communities are represented by a Chairman and an Advisory Committee under Manitoba's Northern Affairs Act.

Each community has a community hall.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources. Prepared by Department of Northern Affairs Development Services Branch.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which will allow them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. New development can now build on this base.

Local, Prov., Federal Government Services

Fire Protection: Harwill has a tanker/ trailer, and there is a small garage under construction. Dallas/Red Rose has a hall under construction, with a truck expected soon. Fisher Bay has a hall under construction, with a tanker/trailer expected soon. Fisher Bay also has a breathing apparatus.

Police Protection: The R.C.M.P. provide service to all 3 communities from Fisher Branch.

Ambulance Service: Ambulance service is provided from Hodgson or Fisher Branch.

Hospital/Nursing Station: Hospitals are located in Hodgson and Fisher Branch.

Sources of Employment in Addition to Trapping and Fishing

Harwill and Dallas/Red Rose are small farm based communities, while Fisher Bay is largely a fishing community. Nearly all services and hence alternative sources of employment other than farming, trapping or fishing are located on the Reserves or in the communities of Hodgson, Fisher Branch or Ashern.

Herb Lake

1982 Community Report

Herb Lake, a community of 13 people is located on the east shore of Wekusko Lake, approximately 4 miles north of P.R. #391. The road connecting the community to P.R. #391 is an all-weather, gravel road. The community is approximately 195 kilometers N.E. of The Pas and approximately 55 kilometers from Snow Lake.

The community lies within the Precambrian Shield region of Manitoba which is characterized as a region of granite and gneissic rocks overlaid with a thin muskeg cover. There are many lakes making the area suitable for fishing, hunting and recreation/tourism.

Present activity in the area includes some commercial fishing and trapping. The community lies within the Herb Lake R.T.L. zone and in the 1979/80 season some 31 trappers caught $118,334 worth of fur.

Schools

Children are bussed to Snow Lake for schooling.

Local, Provincial, Federal Gov't Services

Fire Protection: The fire department is organized with a Fire Chief and voluntary Fire Brigade. There is a fire hall, portable pumps, pack pumps, fire extinguishers, smoke detectors, and other related equipment.

Police Services: The community is serviced by the R.C.M.P. from Snow Lake.

Ambulance Service: Patient Air Transportation (P.A.T.).

Hospital: The nearest hospital is in Snow Lake.

Recreation Facilities

There is a good picnic area overlooking the lake, and scenic trails around the lake.

Transportation/ Accommodation

There is an all-weather road into the community. Air service is by charter. There are private docks. Overnight accommodation available at Cormon's Guest House.

Utilities

Hydro: Provided by privately owned plant.

Telephone: Mobile phone installed by Northern Affairs.

Water Supply: Obtained individually from the lake. No organized service.

Sewage Disposal: None

Garbage Disposal: There is an unattended dump, built 4 years ago, two miles from the community.

Housing

There are approximately 8 households in the community.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which will allow them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. New development can now build on this base.

Homebrook
1982 Community Report

Homebrook and the adjacent settlement of Peonan Point are located along P.R. #328, 5 kilometers north of Portage Bay on Lake Winnipeg, and 24 kilometers west of Gypsumville, the nearest trading centre. P.R. #328 connects the settlements to P.T.H. #6, 11 kilometers to the east which provides access to Winnipeg, some 256 kilometers to the south.

The population of the settlement numbered 38 in 1982.

The primary economic activity is farming and ranching, supplemented by trapping and fishing. The community is located in an open-trapping zone.

Homebrook has been represented by a Chairman and Local Advisory Committee under Manitoba's Northern Affairs Act.

Local, Prov., Federal Government Services

Fire Protection: There is a tanker which is stored outside and drained in the winter. There will possibly be a building constructed next year. The Fire Department is active.

Police Service: The community is serviced from the nearby Canadian Forces Base.

Hospital/Nursing Station: Hospital service is available at Ashern.

Schools

Children are bused to the school at Gypsumville.

Recreation Facilities

The community has a playground.

Transportation/ Accommodation

Access is gained from P.R. #328. There is no public overnight accommodation.

Utilities

Hydro: Land line hydro power. There are a total of 126 hook-ups in Homebrook, Waterhen, and Mallard, of which 65 are for light, heat and power. Residential power rates per month: Service Charge $8.00; first 250 kwh - 5.00¢/kwh; additional power 2.53¢/kwh.

Telephone: Land line with dial telephones, on the Gypsumville Exchange.

Water Supply: Drilled wells.

Sewage Disposal: Most homes use outdoor pit privies.

Garbage Disposal: A new garbage dump is now under construction together with a service road.

Housing

There are approximately 18 households in the community.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources. Prepared by Department of Northern Affairs Development Services Branch.

Sources of Employment in Addition to Trapping and Fishing

There are no stores or service centres in the community, and consequently no local sources of employment other than farming, fishing and trapping.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which will allow them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. New development can now build on this base.

Ilford

1982 Community Report

Ilford, a community with a population of 190 in 1982, is located along the C.N.R. Bay line, 40 kilometers south-east of Split Lake; 144 kilometers by air north-east of Thompson; 416 kilometers by rail north-east of The Pas, and 688 kilometers by air north of Winnipeg. The community originated as a construction and service centre during the building of the railway. Later it served as a marshalling area for prospectors during the Island Lake gold rush. Present economic activity includes rail track maintenance, commercial fishing, trapping and local service activity. Forest resources in the area are largely immature.

In 1980-81, 2 licensed fishermen delivered 39,251 lbs. of fish valued at $24,401. Trapping is conducted in the Split Lake R.T.L. zone, in which 134 trappers produced fur valued at $265,552 in 1979-80.

The railroad is the only surface transportation system serving the community. Daily service is provided. Scheduled airplane service is available and chartered air services can use the 4,000 ft. gravelled airstrip and terminal building. Manitoba Hydro and the Manitoba Telephone System provide land line services.

Ilford has been governed since early 1979 by an elected Mayor and Council under Manitoba's Northern Affairs Act.

Housing

There are approximately 31 households in the community.

Local, Provincial, Federal Gov't Services

Fire Protection: The community has a new fire hall, a new truck, a portable pump, and related equipment. There is a siren on the hall.

Police Services: Police services are provided by the R.C.M.P. stationed within the community.

Ambulance Service: Patient Air Transportation (P.A.T.) system based in Thompson.

Nursing Station: There is one community health worker.

Schools

Frontier School Division maintains a school in the community with 1 principal, 1 teacher, 1 aide, and 3 support staff teaching 35 pupils, from pre-school through Grade 9. Numbers of students attending are as follows:

Grades	No. of Students
Pre-school	0
1-6	32
7-9	3
Total:	35

Transportation/ Accommodation

Calm Air scheduled flights are available twice weekly, using 4,000 ft. runway. C.N. passenger train service is available three times weekly. Taxi, hotel and restaurant service is available.

Utilities

Hydro: Land line service with a total of 60 residential connections of which 23 are for heat, light and power. Residential power rates per month: Service Charge $4.10; first 200 kwh 4.74¢/kwh; additional power 2.53¢/kwh.

Telephone: Land line service with dial service and 48 connections in community.

Water Supply: Water pumped from local river system, chlorinated and delivered to two stand pipes.

Sewage Disposal: Most residences use pit privies. Frontier School has its own disposal system.

Garbage Disposal: There is a fenced garbage dump with a garbage hauling service.

Recreational Facilities

The community has a hall with a capacity for 100 people. It is in good condition and is used for movies, special meetings and some recreational activity. There is also a skating rink and the Frontier School gymnasium is used for some activities, as well as a beach area.

Island Lake

1982 Community Report

The community of Island Lake consists of a group of islands near the north shore of Island Lake including Stevenson, Wass, Hamilton, Boothe, Chapins, R.C. Mission, Gravel and Lindsays. These islands are quite close to the Garden Hill Indian Reserve which is located largely on the mainland. These communities are located in the Precambrian Shield region of Manitoba, approximately 412 kilometers north-east of Winnipeg, and 260 kilometers south-east of Thompson. Two other Indian Reserves, Ste. Theresa Point and Wassagomach are located on the west shore of the lake, about 20 kilometers away.

The two communities are dependent on each other for services. The 4,000' airstrip, air terminal and the Hudson's Bay Store are located on Stevenson Island. Other stores and the school are on the Reserve.

The original settlement in the area was established by the Hudson's Bay Company in 1818 and is listed among those posts which were occupied at the union with the Northwest Company. Gold-bearing areas were discovered in the 1920's and mined for a few years. Small to medium deposits of lithium and nickel have been found in the area, and magnetic anomalies indicate further reserves. There are no operating mines at present. The area is heavily forested but lack of surface access prevents development of this resource.

Fishing and trapping are the major economic activities at present.

In 1980-81 11 fishermen in the Island Lake area delivered about 29,342 lbs. of fish with a value of $16,328. In the 1979-80 trapping season, 265 trappers harvested fur valued at $428,434 from the Island Lake R.T.L. zone. The service industry which includes the airport and Hudson's Bay Store also provide significant employment.

Island Lake residents are represented by a Chairman and Local Advisory Committee under Manitoba's Northern Affairs Act.

Local, Prov., Federal Government Services

Fire Protection: There is a hall, which needs to be winterized, a truck, and related equipment. There is a siren on the hall. The Fire Department is active.

Police Service: The R.C.M.P. provide service from Garden Hill.

Ambulance Service: Patient Air Transportation (P.A.T.). There is a Nursing Station on the Reserve.

Hospital: The nearest hospital is located at Norway House.

Schools

Frontier School presently have two classrooms on Stevenson Island. Classrooms are in the Drop-in-Centre and Community Centre. 1 principal, 1 teacher and 2 support staff teach students from pre-school through Grade 9. Numbers of students attending are as follows:

Grades	No. of Students
Pre-School	3
1-6	19
7-9	7
Total:	29

Housing

There are approximately 34 households in the community.

Utilities

Hydro: Diesel electric plant supplied and maintained by Manitoba Hydro, supplying the two communities. Residential power rates per month: Service Charge $8.00; first 250 kwh - 5¢/kwh; additional power 2.53¢/kwh.

Telephone: Land line with dial telephones and 370 hookups in the two communities, an increase from the 241 hook-ups of last year, serviced by the Garden Hill exchange.

Water Supply: Water pumped from Island Lake, chlorinated, with distribution to a limited number of homes. Others obtain their own supply.

Sewage Disposal: Sewage disposal to lagoon for those homes on water line. Others use pit privies.

Garbage Disposal: Garbage disposal area on Stevenson Island only, not presently fenced. It is located on airport property and is available for limited use only.

Recreation Facilities

Facilities include a curling rink, skating rink and community club hall with a capacity for 60 people, used for meetings, socials, bingos, etc. There is also a Drop-in-Centre, presently used primarily for classroom and meeting centre, living accommodation upstairs.

Transportation/ Accommodation

There are no all-weather roads into the community, but there is a winter road in season. There is a daily scheduled air service from Winnipeg by Perimeter Air Lines Ltd. Calm Air flies a twice weekly scheduled service into the communities also. Taxi service is available, as is overnight accommodation, on the Reserve. A new chartered air service (Ministic Air) has been established. This is jointly owned with the Band having shares in it.

Little Grand Rapids

1982 Community Report

Two closely related and adjoining but independent communities, are known as Little Grand Rapids. One, with a population of 815 in 1980 is located on the Little Grand Rapids Indian Reserve, the other with a population of 37 in 1982 is located on nearby Provincial Crown Land. The first is under the jurisdiction of the Federal Government Department of Indian Affairs and Northern Development, the second is under the jurisdiction of the Department of Northern Affairs. The smaller community is largely dependent on the larger for commercial and government services including schools, garbage disposal and stores. All information in this report is for the non-Treaty community unless otherwise stated.

Both communities are located approximately 240 kilometers north-east of Winnipeg on both shores of Family Lake at the Narrows into Fishing Lake and near the Ontario-Manitoba border. There are no all-weather transportation systems into the communities. Access is gained by twice-weekly scheduled flights by Perimeter Airlines, charter aircraft and winter road. A 3,000 ft. gravelled airstrip and air terminal is located on the north shore of Family Lake. Float plane service is also available from about May 1 to November 1.

Economic activity includes some commercial fishing, trapping and wild rice harvesting. The communities are located in the Little Grand Rapids R.T.L. zone.

In 1980, wild rice harvesters in Little Grand Rapids delivered 4,700 lbs. of rice valued at .63¢/lb. Paungassi harvesters produced 27,000 lbs. The price of wild rice is quite variable and not all production is recorded. In addition to these activities, there is also some sport fishing in the area and one lodge caters to fishermen as well as providing overnight accommodation for other travellers to the area.

The Department of Northern Affairs is responsible for providing municipal services to the community on Crown Land. The community has appointed a local contact person to work with the Department in identifying needs.

Recreation Facilities

On Reserve.

Local, Prov., Federal, Government Services

Fire Protection: The community has fire extinguishers.

Police Protection: R.C.M.P. are in the community two days every week. Additional service is provided by the R.C.M.P. at Lac du Bonnet.

Hospital/Nursing Station: There are nursing stations in the community and on the nearby Reserve. Nearest hospital is at Pine Falls.

Ambulance Service: Patient Air Transportation from Selkirk to Lac du Bonnet.

Schools

Children attend the D.I.A.N.D. school on the Reserve. A teaching staff of 9 teaches students from kindergarten through Grade 9. Enrollment is as follows:

Grade	No. of Students
Kindergarten	27
1-6	162
7-9	10
Total:	199

There are also 15 students registered in Special Services, which is a program for students of all ages that require special considerations.

Utilities

Hydro: Diesel electric power supplied by Manitoba Hydro with 100 hookups in the two communities. Residential power rates per month: Service Charge - $8.00; first 250 kwh - .05¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line dial service with local exchange and 72 hookups in the two communities.

Water Supply: Pumped from Family Lake, chlorinated, with distribution outlet at pump house and supplied free of charge to users.

Sewage Disposal: Pit privies.

Garbage Disposal: One acre garbage disposal 1.5 miles from community with burning area 20' × 25'.

Housing

There are approximately 13 households in the community.

Transportation/ Accommodation

No all-weather surface transportation system. Scheduled air service twice weekly by Perimeter Airlines, charter air service as well as winter road.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources. Prepared by Department of Northern Affairs Development Services Branch.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which will allow them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. New development can now build on this base.

Loon Straits

1982 Community Report

Loon Straits, a community with a population of 7 people in 1982 is located on the east shore of Lake Winnipeg, diagonally opposite Washaw Bay and 50 kilometers north of Manigotogan. There are no all-weather roads into the community. Access is gained by boat and barge in the summer, by winter road and by float or ski equipped charter aircraft.

The primary economic activity is commercial fishing and trapping. In 1980-81, 6 fishermen delivered 91,877 lbs. of fish valued at $60,021. The community is located in the Bloodvein R.T.L. zone.

The Selkirk office of the Department of Northern Affairs is responsible for municipal services in the community. Mr. Bob Oddliefson is the local contact person.

Local, Provincial, Federal Gov't. Services

Fire Protection: The community has a portable pump, fire extinguishers, smoke detectors, and a trailer to hold the equipment.

Police Services: Served by the R.C.M.P. from Lac du Bonnet.

Ambulance Service: Patient Air Transportation.

Hospital/Nursing Station: Hospital services available at Gimli.

Schools

Students are transported to Pine Dock for their primary education.

Transportation/ Accommodation

There are no all-weather roads into the community. Access is gained by winter road, and by float and ski-equipped aircraft.

Utilities

Hydro: Diesel electric power supplied by Northern Affairs under an agreement with the community. The community contributes a sum of money each year to the Department to cover part of the cost of operation.

Telephone: Land line with 2 hook-ups.

Water Supply: Lake Winnipeg - no standpipes or treatment.

Sewage Disposal: Pit Privies

Garbage Disposal: Garbage pit built in 1975. Private individual haulage.

Housing

There are approximately 5 households in the community.

Recreation

There is one community hall in fair condition which will accommodate 50 persons, used for dances, bingos, and meetings.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources. Prepared by Department of Northern Affairs Development Services Branch.

Sources of Employment in Addition to Trapping and Fishing

Nearly all commercial and government services are located outside the community and there are very few employment opportunities in addition to Trapping and Fishing.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which will allow them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. New development can now build on this base.

Mallard

1982 Community Report

Mallard, a community with a population of 209 residents in 1982, is located on the south-east end of Waterhen Lake, approximately 288 kilometers north-west of Winnipeg and 96 kilometers north north-east of Dauphin. Three other communities are located nearby, these being Skownan, the Waterhen Indian Reserve and Waterhen. Winnipegosis is the nearest service centre 78 kilometers to the south-west. There are several stores in the area, notably at Skownan.

Economic activity centres on commercial fishing, trapping, the local service sector and some livestock production. The community is located in the Skownan R.T.L. zone. In 1980-81, 82 trappers produced fur valued at $163,557 in this zone.

Mallard has been governed since May 1, 1970 by an elected mayor and council under Manitoba's Northern Affairs Act.

Recreation Facilities

The community has one hall in fair to good condition capable of accommodating 150 people and used for meetings, dances, weddings, etc. In addition there is an outdoor rink, ball diamond, local park, playground, and a beach area.

Local, Prov., Federal Government Services

Fire Protection: Mallard is serviced by Waterhen.

Police Protection: A community council appointed police constable is shared with Waterhen. The R.C.M.P. provide service from Winnipegosis.

Ambulance Service: Served from Waterhen.

Hospital/Nursing Station: Served from Winnipegosis. There is a dental clinic in Waterhen.

Schools

Children are bused to the Frontier School at Waterhen where 1 principal, 12 teachers, 2 aides and 6 support staff teach students from pre-school through Grade 9. Enrollment is as follows:

Grades	No. of Students[1]
Pre-School	25
Grades 1-6	148
" 7-9	50
Total:	223

Note: [1]includes students from several communities.

Housing

There are approximately 46 households in the community.

Utilities

Hydro: Land line hydro power, with a total of 126 accounts in Mallard, Waterhen, and Homebrook, of which 65 are for light, heat and power. Residential power rates per month: Service Charge - $8.00; first 250 kwh - 5.00¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with dial telephones on Waterhen exchange.

Water Supply: Water supplied from deep well, chlorinated and distribution system to 19 homes. Central standpipe for those not connected to distribution line. At present there is no charge for water.

Sewage Disposal: Some homes have private field systems. Others use pit privies.

Garbage Disposal: Garbage facility renewed in 1979 - 300' × 400' and fenced with enclosed burning area. Weekly pick-up for all residents.

Transportation/ Accommodation

Overnight accommodation is available in nearby tourist cabins in season. Taxi service is also available at Skownan and Waterhen.

DEPARTMENT OF NORTHERN AFFAIRS

Manigotogan

1982 Community Report

Manigotogan, a community of 220 people, is located near the mouth of the Manigotogan River on the east shore of Lake Winnipeg, 44 miles north of Pine Falls on P.T.H. No. 304. It is part of a four community complex in an area approximately 10 miles square. The Hollow Water Indian Reserve, a community of 411 residents with Wanipigow as its centre lies to the north. The community of Seymourville with a population of 123 lies on the northern boundary of this Reserve, and Aghaming with 22 people is nearby. Each community is independent but all are interdependent on each other for some services.

They are located within the Precambrian Shield region of Manitoba, an area of granite-gneissic rock with little or no soil cover. The land within the immediate vicinity of the communities is clay with rock outcroppings supporting soft and hard wood forest cover.

Economic activity in the area includes fishing, hunting, trapping, logging for the pulp mill at Pine Falls and the local sawmill, tourism and wild rice harvesting. In 1980-81, 7 fishermen working out of Manigotogan delivered 71,337 lbs. of fish with a value of $65,386. Trapping in the area is organized under the Hole River and Lac du Bonnet Registered Trapline sections.

Information given in this report is for Manigotogan only unless otherwise specified, notably in populations and sources of government and commercial services and employment.

Local, Prov., Federal, Government Services

Fire Protection: Manigotogan has a fire hall with a siren, and a tanker/trailer. A new truck is possible for next year. Aghaming has a portable pump and some equipment.

Police Services: Police protection by the R.C.M.P. based in Pine Falls 44 miles to the south via PTH #304.

Ambulance Service: Ambulance service is provided from Pine Falls.

Hospital/Nursing Station: None. There is a health centre in Manigotogan which acts as a first aid station. There is also a health station in Wanipigow which employs a parttime community health worker.

Schools

Children from Manigotogan are bused to the Frontier School on Hollow Water Indian Reserve, approximately nine miles to the north. This school serves the communities of Manigotogan, the Reserve and Seymourville. Grades from pre-school to grade 12 are offered. Staff includes 1 principal, 1 vice-principal, 15 teachers, 3 aides and 5 support staff. Construction of a new addition to the school is projected to start in 1982. Enrollment is as follows:

Grade	No. of Students
Pre-School	52
1 - 6	129
7 - 9	67
9 - 12	40
Total Enrollment:	288

Utilities

Hydro: Land line hydro power with 47 homes connected for light and power only and an additional 29 homes hooked up for light, power and heat. Residential power rates per month: Service Charge - $8.00; first 250 kwh - 5.00¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with dial telephones. M.T.S has a combined total of 210 connection in the Manigotogan, Seymourville and Hollow Water communities, an increase from the 117 hook-ups of last year.

Water Supply: Water is pumped from the Manigotogan River. There are 3 pumphouses in the community and one standpipe, with filtration and chlorination. The recreation hall, curling rink and about 30 residences are hooked up to the system.

Sewage Disposal: A lagoon with an estimated capacity of 20,000 gallons was built last year. Hauling and disposal of sewage is the responsibility of the individual. The homes connected to water have septic fields or pump-out systems.

Garbage Disposal: A garbage pit with an estimated area of one acre was built last year. Garbage is hauled to the pit by individual householders.

Housing

There are approximately 57 households in the community of Manigotogan.

Recreation Facilities

There is one new community hall with a capacity of 200 people, and electric heat is available. There is also a curling rink, outdoor skating rink, and ball diamond.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources. Matheson Island

1982 Community Report

Matheson Island, a community with a population of 128 residents in 1982 is situated on an island with the same name near the Narrows on Lake Winnipeg. Nearby communities include Princess Harbour and the Bloodvein Indian Reserve, both of which are on the other side of the Narrows, some 16 kilometers distant and Pine Dock which is about the same distance to the south-east. The community itself extends for approximately 6 kilometers along the south-east side of the island. A road runs the length of the settlement and there are numerous trails throughout the island. A ferry connection provides access to P.R. #234, an all-weather road which connects with P.T.H. #8 at Riverton. Winnipeg lies 224 kilometers to the south.

Present economic activity is based on commercial fishing, trapping and the local service sector. 28 fishermen delivered 509,732 lbs. of fish in 1980-81 valued at $360,732. The community is located in the Bullhead R.T.L. zone and trapping supplements income during the winter. A sawmill provides lumber for local construction.

Matheson Island has been governed since October, 1969 by a Mayor and Council under Manitoba's Northern Affairs Act.

Housing

There are approximately 36 households in the community.

Local, Prov., Federal, Government Services

Fire Protection: There is a portable pump, fire extinguishers, and smoke detectors.

Police Service: The community is serviced by the R.C.M.P. from Arborg.

Ambulance: Ambulance service is provided from Riverton.

Hospital/Nursing Station: Hospital service is available at Riverton.

Schools

The community is served by a Frontier School with 1 principal, 1 teacher and 3 support staff teaching students from Pre-School through Grade 9. Enrollment is as follows:

Grade	No. of Students
Pre-School	2
Grades 1-6	16
" 7-9	6
Total:	24

Recreation Facilities

The community has one hall in fair condition with a capacity for 100 people and used for socials, meetings, weddings, etc. There is also an indoor skating rink, baseball diamond, gymnasium at the school, local park, playground, and beach area.

Utilities

Hydro: Land line hydro power with 52 hookups of which 6 are for heat and light. Residential power rates per month: Service Charge - $8.00; first 250 kwh - 5.00¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with dial telephones and 6 hookups (public pay phones).

Water Supply: 32 drilled wells

Sewage Disposal: Most homes have septic fields.

Garbage Disposal: Garbage dump available with individual delivery.

Transportation/ Accommodation

A ferry connects the community to the all-weather road P.R. #234. There is no overnight accommodation.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs and the Department of Natural Resources.

Meadow Portage

1982 Community Report

Meadow Portage, a community with a population of 154 residents in 1982, is located on a narrow strip of land dividing Lake Manitoba and Lake Winnipegosis, 16 kilometers south of Waterhen and 48 kilometers east of Winnipegosis. The terrain is mixed farmland-woodland. Economic activity in the area is centred on commercial fishing, farming, livestock and local services. Agriculture has provided a modest income. In 1980-81, 19 fishermen delivered 137,440 lbs. of fish valued at $104,160. Tourism also provides some income to the community.

Winnipegosis is the nearest major shopping and service centre. School children are bused to the school there.

Meadow Portage has been governed since December, 1970 by a Chairman and Local Advisory Committee under Manitoba's Northern Affairs Act.

Population 1982

Frontier (#48)	29.6
Business Tax:	10%

Housing

There are approximately 47 households in the community.

Local, Prov., Federal, Government Services

Fire Protection: There is a fire hall with a new extension, a tanker/trailer and a new truck. The Fire Department is active.

Police Protection: A local police constable is shared with Waterhen. The R.C.M.P. also provide service from Winnipegosis.

Ambulance Service: Provided from Waterhen.

Hospital/Nursing Station: A hospital is available in Winnipegosis, Ste. Rose du Lac, and Dauphin.

Schools

School children are bused to Winnipegosis.

Recreation Facilities

There is a community hall in good condition which will accommodate 225 persons and used for dances, weddings, bingos, etc. In addition, there are baseball diamonds, an outdoor skating rink and playground.

Transportation/ Accommodation

All-weather road access is provided via P.R. #276 to Ste. Rose du Lac and other areas by connecting highways. No overnight accommodation is available.

Utilities

Hydro: Land line hydro power, with 94 accounts. Residential power rates per month: Service Charge $8.00, first 250 kwh - 5.00¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with dial telephones served from the Rorketon exchange.

Water Supply: Private wells. A reservoir and pumphouse are scheduled for 1982.

Sewage Disposal: Most residences use pit privies.

Garbage Disposal: There are two fenced-in facilities, one at each end of the community.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources. Prepared by Department of Northern Affairs Development Services Branch.

Sources of Employment in Addition to Trapping and Fishing

Farming and ranching provide some employment. Most commercial and government services are provided from Rorketon, Waterhen or Winnipegosis.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which will allow them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. DEPARTMENT OF NORTHERN AFFAIRS

Moose Lake

1982 Community Report

Two closely related and adjoining, but independent communities are known as Moose Lake. One is located on the Moose Lake Indian Reserve. The second is nearby on Provincial Crown Land. The first is under the jurisdiction of the Federal government's Department of Indian Affairs and Northern Development, the second under the jurisdiction of the Provincial Department of Northern Affairs. The two communities are interdependent on each other for some services, notably commercial services and economic development. Each has its own community council budget. All information in this report is for the non-treaty community unless otherwise stated.

Both communities are located on the northern limits of the Saskatchewan River Delta on the western shore of Cedar Lake, 44 miles south-east of The Pas. They are connected to The Pas by an all-weather road.

The delta area and adjoining Cedar Lake are suitable for intensive fish and wildlife production and cattle ranching on an extensive scale has been practiced in the past. The most notable economic activity at present is provided by Moose Lake Loggers Incorporated. This company, operating as a Crown Corporation, produces 55,000-70,000 cords of pulpwood and sawlogs for sale to Manfor at The Pas and employs 60 - 70 people, most of whom come from the nearby communities. The company has not been in operation since spring 1982 due to the depressed forest industry, but it is expected to re-open September 30, 1982.

Trapping and fishing are also important to the community. Last year, 35 fishermen delivered 645,391 lbs. of fish valued at $331,757. In 1979-80 5 trappers caught fur valued at $12,440 in the Moose Lake R.T.L. zone.

The community of Moose Lake has been governed since June, 1971 by an elected Mayor and Council under Manitoba's Northern Affairs Act.

Local, Prov., Federal, Government Services

Fire Protection: There is a new fire hall, a new fire truck with a portable pump, and a tanker. The Fire Department is active.

Police Services: The community has a local police constable hired by the Council. In addition, the R.C.M.P. provide service. The community has a 2-cell detention centre.

Ambulance Service: Patient Air Transportation (P.A.T.)

Schools

Frontier School Division maintains a school in the community with a staff of 1 principal, 18 teachers, 4 teachers' aides and 7 support staff teaching 324 students from pre-school through grade 9. Students in higher grades are accommodated at The Pas and Frontier Collegiate at Cranberry Portage. Numbers of students attending are as follows:

Grades	Number of Students
Pre-school	44
1 - 6	221
7 - 9	59
Total:	324

Housing

There are approximately 110 households in the community.

Utilities

Hydro: Land line with 182 hookups for light and power only for both communities. Residential power rates per month: Service Charge $4.10; first 200 kwh - 4.74¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with 119 dial phones connected in the two communities.

Water Supply: Source of water is 100' well with line to pumphouse where water is chlorinated. Frontier School, teacherages, administration building, lock-up facility and new community hall are connected to metered water line service. The Council is responsible for operating and maintenance costs. There is no other water delivery system in the community and residents obtain their water manually from the well.

Sewage Disposal: Frontier School has its own septic field; there are holding tanks at the Community Hall (1,000 gal.); the lock-up facility (1,400 gal.); and the administration building (1,400 gal.). Most residences use outdoor toilets.

Garbage Disposal: There is a night soil and garbage pickup daily on a rotational basis, 5 days per week. Equipment used is a small Case tractor and wagon with a small tank for night soil. The night soil and bulk pit is located one mile off the highway, four miles from the community.

Transportation/ Accommodation

There is an all-weather road into Moose Lake. Three buses and three taxis provide service. In emergency cases, Lambair or Government Air provide transportation from a 3,400' gravelled runway. There is public overnight accommodation. Post Office has delivery two times per week.

Recreation Facilities

There is a gymnasium in the school which is available to the community upon request; two baseball diamonds; two soccer fields; an outdoor skating rink; bingo five nights per week; a hockey committee; M.M.F. committee; and two halls, one of which is new with a capacity for 150 people and which is used for bingos, dances, receptions, meetings, etc.

Nelson House

1982 Community Report

Two closely related and adjoining, but independent communities are known as Nelson House. One is located on the Nelson House Indian Reserve, the other is located on nearby Crown Land. The Reserve community is under the jurisdiction of the Federal Government's Department of Indian Affairs and Northern Development, the second community is under the jurisdiction of the Department of Northern Affairs. The two communities, with a combined population of 1,387 are inter-dependent on each other for some services, notably commercial services and economic development. Each has its own system of local government. All information in this report is for the non-Treaty community unless otherwise stated.

These communities are located along the north shore of Footprint Lake, approximately 65 kilometers west of Thompson, 656 kilometers north of Winnipeg and 248 kilometers north-east of The Pas. There is an all-weather road which connects Nelson House to Thompson as well as P.R. 391 which connects the community to Lynn Lake.

Economic activity in Nelson House is based on fishing, hunting and the local service sector.

The majority of the productive forest land is still in young growth, but will, potentially, be another source of income. In 1980-81, 14 fishermen produced 70,306 lbs. of fish valued at $47,160. In 1979-80, 145 licenced trappers harvested fur valued at $266,473 in the Nelson House R.T.L. zone.

Nelson House has been represented since July 30, 1974 by a Chairman and Local Advisory Committee, under Manitoba's Northern Affairs Act. The Reserve community is governed by an Indian Band Council.

Housing

There are approximately 14 households in the community.

Local, Provincial, Federal, Gov't Services

Fire Protection: The community has a Fire Hall, a tractor, a tanker, and related equipment. There is a siren on the hall. The Fire Department is active.

Police Protection: Until recently, the community was serviced by the R.C.M.P. stationed in Thompson. There is now, however, an R.C.M.P. station in Nelson House.

Ambulance Service: Ambulance service is obtained from Thompson.

Hospital/Nursing Station: There is a nursing station with 2 Registered Nurses and one Community Health Worker in the community. A doctor visits Nelson House monthly and a dentist yearly.

Schools

The Roland Lauze School has burnt down. Trailers and other buildings are being used as classrooms until a new school is built.

Recreation Facilities

There is no community hall. There is a beach, park, picnic area and barbeque pits, playground, baseball diamond, and outdoor rink.

Utilities

Hydro: Land line hydro power with 185 hook-ups in the two communities for light and power only, 76 hook-ups for light, power and heat, making a total of 261 hook-ups. Residential power rates per month: Service Charge $4.10; first 200 kwh 4.74¢/kwh; additional power 2.53¢/kwh.

Telephone: M.T.S. provided the two communities with dial telephone in 1974. There are 161 hook-ups, an increase from the 84 hook-ups of last year.

Water Supply: Water is obtained from Footprint Lake by submerged intake line through to a pump house. There is one standpipe. The water is chlorinated and treated with potassium permanganate. The water line is heat taped. There is no delivery system at present.

Sewage Disposal: There is no public sewage system. Most of the residents use pit privies, with the exceptions of the school, the nursing station and the R.C.M.P. station. There are long-range plans for a sewage system but nothing has been finalized yet.

Waste Disposal: A garbage dump has been built recently and there is pick-up service once a week. The operation and maintenance costs are funded by the Department of Northern Affairs.

Transportation/ Accommodation

There are 3 taxi services available, as well as daily bus service. Air service is available by charter only. There is no overnight accommodation.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources. Prepared by Department of Northern Affairs Development Services Branch.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which will allow them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. New development can now build on this base.

Norway House

1982 Community Report

Two closely related and adjoining, but independent communities are known as Norway House. One is located on the Norway House Indian Reserve. The second is on nearby Crown Land. The Reserve community is under the jurisdiction of the Federal Government's Department of Indian Affairs and Northern Development, the second under the jurisdiction of the Department of Northern Affairs. The two communities with a combined population of 2,845, are interdependent on each other for some services, notably commercial services and economic development. Each has its own system of local government. All information in this report is for the non-Treaty community unless otherwise stated.

These communities are located on the east channel of the Nelson River, approximately 29 kilometers north of Lake Winnipeg. There is an all-weather road from Norway House to Jenpeg, from Jenpeg an all-weather road connects to PR 391. Norway House is approximately 456 kilometers north of Winnipeg, 208 kilometers east of The Pas and 190 kilometers south of Thompson.

Economic activity in Norway House is based on commercial fishing, trapping and the local service sector. The terrain is primarily made up of a granite base with little or no soil cover. Large areas are marshy and there are also many rivers, streams and small lakes. Commercial fishing is conducted throughout the year. In 1980/81, 52 fishermen produced 542,374 lbs. of fish valued at $301,075. Trapping is marginal, the major species being beaver, lynx, mink, muskrat, and otter. In 1979/80, 208 trappers caught fur valued at $352,000 in the Norway House R.T.L. zone.

Norway House has been governed since November, 1970 by an elected Mayor and Council under Manitoba's Northern Affairs Act.

Housing

There are approximately 164 households in the community.

Local, Provincial, Federal, Gov't Services

Fire Protection: There is a new fire hall, a truck, 2 tanker/trailers, and seven portable pumps. There is a siren on the hall.

Police Protection: There are 12 R.C.M.P. stationed in the community.

Ambulance Service: None

Hospital: There is a 25 bed hospital located in the community served by two doctors and fifteen nurses. There is also a medical centre, a public health centre and a northern medical unit.

Schools

The community is served by 3 integrated (Treaty and non-Treaty) Frontier schools offering education from nursery school through Grade XII. There are 3 principals, 3 vice-principals, 59 teachers, 7 aides and 17 support staff, with a total of 1,088 students as follows:

Grades	No. of Students
Pre-school	162
Grades 1-6	497
" 7-9	251
" 9-12	178
Total:	1,088

Utilities

Hydro: Land line hydro power with 600 residential connections in Norway House and Warren's Landing. Residential power rates per month: Service Charge $4.10; first 200 kwh - 4.74¢/kwh; additional power 2.53¢/kwh.

Telephone: Land line with dial phones and 709 residential connections in the two communities, an increase from the 407 hook-ups of last year.

Water Supply: Chlorinated water supply from a stand pipe connected to the Nelson River, heat traced to a pump house.

Sewage Disposal: There is no public sewage system. Most of the residents use pit privies, with the exception of the hotel, hospital, R.C.M.P., etc., who use a pump-out system. There is no lagoon.

Garbage Disposal: Presently, there is a small garbage dump on Fort Island. A new facility is to be built on West Island. There is no pick-up service operating at the present time.

Recreational Facilities

There is one community hall (in fair condition), with a capacity of 200, used for meetings, dances, etc. A new arena is also in operation, as well as a ball field, beach area, local park, playground, and a gym at the school.

Pelican Rapids

1982 Community Report

Pelican Rapids, a community with a population of 236 residents in 1982 is located on the south-east shore of Dawson Bay which is on the north-western end of Lake Winnipegosis. The Shoal River Indian Reserve is nearby. Both communities are connected to P.T.H. #10 by a winding 32 kilometer gravel road.

Economic activity is largely confined to trapping and commercial fishing. There is some winter fishing as well as summer fishing. In 1980-81, 6 fishermen delivered 97,614 lbs. of fish valued at $20,335. The community is located in the Red Deer-Shoal River R.T.L. zone. Trappers from a number of communities use this zone. The Manwap sawmill which operated for a number of years is now closed.

Pelican Rapids is governed by a Mayor and Council under Manitoba's Northern Affairs Act.

Tax Structure

Community assessed for the first time this year.

Recreation Facilities

There is one community hall, renovated in 1980, which is used for bingos, dances and meetings. Other facilities limited. A new outdoor rink and change shack is under construction in the summer of 1982.

Transportation/ Accommodation

Community accessible by all-weather winding gravel road from P.T.H. #10. No overnight accommodation available. There is a taxi service available.

Local, Prov., Federal, Government Services

Fire Protection: There is a small hall, a tanker/trailer and related equipment.

Police Protection: The community council has recently appointed a police constable. The R.C.M.P. provide service from Swan River. The community has a 2-cell detention centre.

Ambulance Service: Served from Swan River, with an emergency alternative from Barrows.

Hospital/Nursing Station: The Province operates a Health and Community Services Health unit in the community. Hospital services are available at Swan River.

Schools

A Frontier School serves the two communities with 1 principal, 12 teachers, 2 aids, and 6 support staff teaching 158 pupils from preschool through grade 8.

Grade	No. of Students
Preschool	23
Grades 1-6	97
Grades 7-8	38
Total:	158

Housing

There are approximately 46 households in the community.

Utilities

Hydro: Land line hydro power with 106 connections in the two communities of which 61 are for light and power only and 45 for heat, light and power. Residential power rates per month: Service Charge $4.10; first 200 kwh - 4.74¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with dial telephones and 45 connections in the two communities.

Water Supply: A dugout was built in the spring of 1982 to replace the previous intake line. Water is fed from Lake Winnipegosis to the dugout, and pressurized. From there it goes to the pumphouse where it is chlorinated. School connected to this system. Water quality is good.

Sewage Disposal: Frontier School has own sewage lagoon. Residents use pit privies.

Garbage Disposal: Newly constructed fenced 400' x 400' disposal area with central smaller burning area fenced with chain link fence. Council has instituted a wekly pickup of residential garbage. The community owns a garbage tractor.

Pine Dock
1982 Community Report

Pine Dock, a community with a population of 105 residents in 1982, is situated on the west shore of the Narrows on Lake Winnipeg, 16 kilometers south of Matheson Island. The community is served by P.R. #234 which provides access to Riverton, 80 kilometers to the south and to Winnipeg via P.T.H. #8 from Riverton some 98 kilometers further south. Nearby communities in addition to Matheson Island include the Bloodvein Indian Reserve and Princess Habour.

Economic activity in Pine Dock is based primarily on commercial fishing with some income being provided by trapping and the small service sector. In 1980-81, 2 fishermen delivered 41,166 lbs. of fish valued at $26,567. The community is located in the Bullhead R.T.L. zone. There is also a fish dressing and packing station in the community.

Pine Dock, has been represented since April 5, 1972 by a Chairman and Local Advisory Committee under Manitoba's Northern Affairs Act.

Recreation Facilities

There is one community hall in fair condition, used for socials, meetings, weddings, bingos, etc. In addition there is a skating rink, gymnasium at the school as well as a beach, ball field, playground and picnic area.

Local, Prov., Federal, Government Services

Fire Protection: The community has portable equipment stored in a leased facility, and a two-wheel trailer for the equipment, as well as related equipment.

Police Protection: Provided by the R.C.M.P. from Arborg.

Ambulance Service: Ambulance services is provided from Riverton.

Hospital/Nursing Station: Hospital service available at Riverton.

Schools

A Frontier School with 1 teacher acting as principal, 1 aide and 3 support staff teaching 14 students from Grades 1 to 9. Enrollment is as follows:

Grades	No. of Students
Pre-School	0
1-6	9
7-9	5
Total:	14

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources.

Utilities

Hydro: Land line hydro power with 33 accounts. Residential power rates per month: Service Charge $8.00; first 250 kwh - 5.00¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with dial telephones - 4 public pay phones.

Water Supply: Drilled wells - two community owned pressure systems servicing six households. Remainder are privately owned.

Sewage Disposal: 17 out of a total of 27 households have septic tanks and fields. Committee owns pump-out system consisting of truck and tank which also serves Matheson Island and Princess Harbour. Remaining households have pit privies.

Garbage Disposal: Unfenced garbage dump with weekly garbage pickup under contract to the Committee.

Transportation/ Accommodation

P.R. #234 passes through the community and provides access to Riverton. Taxi service available. No overnight accommodation.

Housing

There are approximately 27 households in the community.

Sources of Employment in Addition to Trapping and Fishing

There is a store and taxi service in the community as well as a fish packing station. Other commercial and government services are available from Riverton.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which will allow them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. New development can now build on this base.

Pikwitonei
1982 Community Report

Pikwitonei, a community of 201 people is located along the C.N.R. Bay line 304 kilometers by rail northeast of The Pas and 48 kilometers southeast of the city of Thompson. The railway provides the only surface transportation system to the outside linking the community to these cities as well as to Thicket Portage, 48 kilometers, and Wabowden, 120 kilometers to the southeast. The railway reached Pikwitonei in 1914 and the community served as a division point on the railway until 1972. Employment on the railway is now limited to roadbed maintenance. The population has been declining slowly.

Pikwitonei is located within an area suitable for recreational as well as forestry development. Pockets of clay soil with some suitability for agriculture are also found in the area. Trapping is an important economic activity. In 1979-80, 35 trappers produced fur valued at $143,123 or slightly less than $4,090 per trapper in the Pikwitonei R.T.L. zone. Fishing is less important with 6 commercial fishermen producing 93,157 lbs. of fish valued at $53,136 in 1980-81.

A diesel plant provides the community with 15 ampere electric service. The Manitoba Telephone System has installed a land line and dial telephone system. The community is also served by a 3,000' clay airstrip and float plane dock.

Pikwitonei has been governed since September, 1969 by an elected mayor and Council under Manitoba's Northern Affairs Act.

Housing

There are approximately 42 households in the community.

Local, Prov., Federal Government Services

Fire Protection: A hall is to be built soon with a siren. There is a truck and related equipment.

Police Services: The community is served by the R.C.M.P. detachment stationed within the community.

Ambulance Service: Patient Air Transportation (P.A.T.).

Hospital/Nursing Station: Local nursing station serviced by medical staff from Thompson, supplemented by 2 local nursing aides.

Schools

Frontier School Division maintains a school in the community with 1 principal, 2 teachers, 1 aide, and 2 support staff teaching 41 students from pre-school through Grade 9. Numbers of students attending are as follows:

Grades	No. of Students
Pre-school	5
Grades 1-6	17
" 7-9	19
Total:	41

Recreational Facilities

Community hall in poor condition and not acceptable for public use. Other facilities include community playground, ball field, beach area, outdoor skating rink and school gymnasium.

Utilities

Hydro: Diesel electric plant maintained by Manitoba Hydro, supplying 15 amp 120 volt power with 68 hook-ups. Residential power rates per month: Service Charge - $8.00; first 250 kwh - 5¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with 33 dial phones connected.

Water Supply: Four year old submerged floating intake from Pikwitonei River to pumphouse with chlorinated and filtered water distributed to two standpipes, one on each side of the river and manual pick-up by residents. Average daily consumption about 1200 gallons. Water quality satisfactory although clouded. Frontier School Division obtains water from local C.N.R. water system. Council maintains system with funding from Northern Affairs. Some expansion anticipated.

Sewage Disposal: Private residential disposal by pit privy. Frontier School employs a septic field disposal system.

Garbage Disposal: New, 4-acre, sanitary landfill site developed one-half mile north of community in 1979. Active disposal by trench method with burning permissible on seasonal basis. O & M requirements restricted to spring and fall waste compaction and burial. No established pick-up service at present.

Transportation/ Accommodation

Rail service three times weekly. Calm Air scheduled flights on Wednesday and Friday each week. No commercial accommodation available.

Princess Harbour

1982 Community Report

Princess Harbour, a community of 35 people, is located on a peninsula on the east shore of Lake Winnipeg. While there are no roads into the community, air service is available by charter and there is a barge service operating on Lake Winnipeg in summer. The community is approximately 304 kilometers north of Winnipeg, 24 kilometers north-west of Bloodvein, 65 kilometers south-west of Berens River.

The community is in an area suitable to forestry development. Abitibi Pulp and Paper have cutting rights to much of the timber which can be shipped by barge to their mill in Pine Falls. The fishing industry is a major source of employment. In 1980/81, 10 fishermen delivered 140,909 lbs. of fish with a value of $92,521. The Bloodvein R.T.L. zone regulates trapping in the area. The local service sector also accounts for a proportion of the residents' income.

Princess Harbour has been governed since 1972 by a Chairman and Local Advisory Committee, under Manitoba's Northern Affairs Act.

Population 1982

Age Group	Princess Harbour
Children:

Housing

There are approximately 10 households in the community.

Local, Provincial, Federal Gov't Services

Fire Protection: There are portable pumps, fire extinguishers, smoke detectors and a trailer to hold the equipment.

Police Services: The community is serviced by the R.C.M.P. station in Lac du Bonnet.

Ambulance Service: Ambulance service is by air to the nearest hospital which is in Gimli.

Hospital/Nursing Station: None

Schools

Frontier Schools maintains a school in the community with 1 teacher acting as principal, and 3 support staff teaching classes from Grades 1 through 9 as follows:

Grades	No. of Students
Grades 1-6	10
Grades 7-9	1
Total:	11

Recreation Facilities

The school is used for recreational purposes such as meetings, dances, etc. There is also a ballfield.

Utilities

Hydro: Diesel generators supplied by Northern Affairs and operated under an agreement with the community. Residents of the community make a contribution to the cost of operation each year.

Telephone: There are 2 public pay phones in the community.

Water Supply: Water is obtained from Lake Winnipeg by individual residents.

Sewage Disposal: The homes of the community have outdoor privies and privately installed indoor systems, while the Frontier School has a septic field.

Garbage Disposal: There is a garbage pit located near the community which is maintained by Northern Affairs. Responsibility for removal and dumping is, again, the individual's.

Transportation/ Accommodation

There are no roads into the community, there is an internal road system, however, an airstrip and float planes can land on Lake Winnipeg. Barge service is also available in summer. There is no overnight accommodation, except in private homes.

Red Sucker Lake

1982 Community Report

Two closely related and adjoining, but independent communities are known as Red Sucker Lake, one of which is a Treaty Indian community, settled by members of the Island Lake Band. This group were granted a Reserve in 1978 on a peninsula of land on the north shore of Red Sucker Lake. The non-Treaty community is located on two nearby islands and is under the jurisdiction of the provincial Department of Northern Affairs. The combined population of the two settlements in 1982 was 367.

There are no land transportation systems to the communities with the exception of winter roads in season. A 3000' clay top airstrip is located outside of the settlement area and there are also facilities for docking floatplanes. Limited scheduled air service is available from Garden Hill. These communities are located approximately 350 kilometers north-east of Winnipeg and 285 kilometers south-east of Thompson.

Red Sucker Lake is located in the Precambrian Shield region of Manitoba and there are indications of the presence of gold, lithium and nickel ore bodies in the area. There are no operating mines at present. The area is also heavily forested but lack of transportation systems make harvesting of this resource impractical. The primary economic activity at this time is commercial fishing and trapping. In 1980-81, 31 summer fishermen from the two communities harvested 200,062 lbs. of fish valued at $99,630. The communities are located in the eastern portion of the Island Lake R.T.L. zone. In 1979-80, 265 trappers in the zone harvested fur valued at $428,434.

At present, the community is represented by a contact person under Manitoba's Northern Affairs Act.

Housing

There are approximately 8 households in the community.

Local, Prov., Federal Government Services

Fire Protection: The community has fire extinguishers on the Island.

Police Services: Served by R.C.M.P. detachment from Norway House.

Ambulance Service: Patient Air Transportation (P.A.T.).

Hospital/Nursing Station: Nursing station located on Reserve. Nearest hospital is at Norway House.

Schools

Children attend the D.I.A.N.D. school on the Reserve. A teaching staff of 7 teaches students from pre-school through Grade 9. Enrollment is as follows:

Grade	No. of Students
Pre-school	29
Grades 1-6	103
Grades 7-9	40
Total:	172

Recreation Facilities

There is a new community hall with a capacity for accommodating 30 people and used for socials, weddings, bingos and meetings. There is also a playground. Additional recreational facilities are on the Reserve.

Utilities

Hydro: Diesel electric plant maintained by Manitoba Hydro, supplying 15 amp 120 volt power to 82 hookups in the two communities. Residential power rates per month: Service Charge - $8.00; first 200 kwh - 5¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with dial telephones and 89 hookups on Red Sucker Lake Exchange.

Water Supply: Individual withdrawal from lake.

Sewage Disposal: Outdoor privies.

Garbage Disposal: None

Transportation/ Accommodation

There is no all-weather surface transportation systems into the community. Winter roads are available in season. A limited scheduled air service is available through Perimeter Airlines (Inland) Ltd. There is no public overnight accommodation available.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources. Salt Point
1982 Community Report

Salt Point is not a village but rather a settlement of some 8 families who have built their homes along a three-mile section of the shore of Lake Winnipegosis on the south-west corner of the Peninsula known as Salt Point. A community hall and nearby outdoor skating rink serves as the focal point for the community. A gravelled road from Skownan provides entry to the community and most of the homes are built along this road. School children are bused to the Frontier School at Waterhen about 40 kilometers distant.

A number of the families are engaged in cattle ranching. Income derived from trapping and fishing is quite limited. The community is located in an open trapping area. The land mass immediately adjacent to the community is quite limited.

Salt Point has been governed since June, 1973 by a Chairman and Local Advisory Committee under Manitoba's Northern Affairs Act.

Population 1982

Age Group	Salt Point
Children:	
0-4 years	0
5-14 years	5
Total:	5
Labour Force:	
15-19 years	5
20-24 years	4
25-34 years	4
35-64 years	11
Age not stated:	1
Over 65 years:	1
Total Population:	31

Department of Northern Affairs
Community Services Branch
27 - 2nd Avenue S.W.
Dauphin, Manitoba R7N 3E5
Telephone: (Dauphin) 638-9111

Tax Structure

The community is not assessed.

Recreation Facilities

There is a community hall in good condition which will accommodate 40 people and used for weddings, meetings, dances and bingos. There is also an outdoor skating rink.

Transportation/ Accommodation

Community is connected by a gravelled road to Skownan which in turn is connected to the Provincial road system by P.R. #276.

Local, Prov., Federal, Government Services

Fire Protection: The community has portable pumps and pack pumps. The Fire Department is active.

Police Protection: Provided by the R.C.M.P. from Winnipegosis.

Ambulance Service: Provided from Waterhen.

Hospital/Nursing Station: Hospital available at Dauphin or Ste. Rose.

Schools

School children are bused to Waterhen.

Houses

There are approximately 8 houses in the area.

Sources of Employment in Addition to Trapping and Fishing

All commercial and government services are located in Skownan, Waterhen or Winnipegosis. The major source of earned income in the community is obtained from cattle ranching.

Utilities

Hydro: Land line hydro power. Residential power rates per month: Service Charge - $4.10; first 200 kwh - 4.7¢/kwh; additional power - 2.53¢/kwh.

Telephone: 2 payphones

Water Supply: Central reservoir of approximately 2 million gallon capacity filled from Lake Winnipegosis. Distribution line to standpipe at community hall as well as two homes in sub-division. Residents pick up water as needed from standpipe.

Sewage Disposal: No public sewage disposal system. Several homes have septic fields. Others use pit privies.

Garbage Disposal: Fenced garbage dump 200' × 400' constructed in 1979 with contained burning area.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources. Prepared by Department of Northern Affairs Development Services Branch.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which will allow them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. New development can now build on this base.

DEPARTMENT OF NORTHERN AFFAIRS

Seymourville
1982 Community Report

Seymourville, a community of 123 people is located on the east shore of Lake Winnipeg. It is part of a four community complex in an area approximately 10 miles square. Seymourville lies on the northern boundary of the Hollow Water Indian Reserve, a community of 411 residents with Wanipigow as its centre. Aghaming, with a population of 22, lies south of the Reserve. The group of communities lies approximately 44 miles north of Pine Falls off P.T.H. #304. Each community is independent, but all are inter-dependent of each other for some services.

They are located within the Precambrian Shield region of Manitoba, an area of granite-gneissic rock with little or no soil cover. The land within the immediate vicinity of the communities is clay with rock outcroppings supporting soft and hardwood forest cover.

Economic activity in the area includes fishing, hunting, trapping, logging for the pulp mill at Pine Falls, tourism and wild rice harvesting.

Trapping in this area is organized under the Hole River and Lac du Bonnet R.T.L. zone.

Information given in this report is for Seymourville only unless otherwise specified.

Recreation Facilities

There are two community halls, an outdoor rink, a beach area, a ball field, a gym, and a local park.

Local, Prov., Federal, Government Services

Fire Protection: There is a fire hall, a truck, and related equipment. The Fire Department is active, and the women operate it when the men are not available. There is a siren on the hall.

Police Services: Seymourville shares a constable with Manigotogan. Additional services is provided by the R.C.M.P. in Pine Falls.

Ambulance Service: Ambulance services is provided from Pine Falls.

Hospital/Nursing Station: None. There is a health centre in Manigotogan, which acts as a first aid station. There is also a health station in Wanipigow which employs a part-time community health worker.

Schools

Children from Seymourville are bused to the Frontier School on Hollow Water Indian Reserve. This school serves the communities of Seymourville, the Reserve and Manigotogan. Grades from pre-school to Grade 12 are offered. Staff includes 1 principal, 1 vice-principal, 15 teachers, 3 aides and 5 support staff. Construction of a new addition is projected to start in 1982. Enrollment in the school is as follows:

Grades	No. of Students
Pre-school	52
1-6	129
7-9	67
9-12	40
Total Enrollment:	248

Utilities

Hydro: The community is serviced by land line. Residential power rates per month: Service Charge - $8.00, first 250 kwh - 5.00¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with dial telephones. M.T.S. has a combined total of 210 connections in the Seymourville, Manigotogan and Hollow River communities, an increase from 117 hook-ups of last year.

Water Supply: Seymourville has its own water system with a pumphouse and a distribution line to homes in the community. The water is treated.

Sewage Disposal: Septic fields are used where authorized. Otherwise, holding tanks are in use. A pumpout site is shared with Manigotogan.

Garbage Disposal: The garbage site is shared with Manigotogan.

Housing

There are approximately 23 households in the community.

Transportation/ Accommodation

Entry into the community is by road only. There is hotel accommodation at Manigotogan.

Sherridon
1982 Community Report

Sherridon, a community with a population of 167 residents in 1982, originated as the service centre for the nearby Sherritt-Gordon nickel mines. The mine closed in the late 1940's resulting in the equipment and many of the houses being moved to Lynn Lake.

The community is located on the C.N.R. rail line, 156 kilometers north of The Pas and 72 kilometers south of Pukatawagan. There are no all-weather roads into the community. Charter air service is available and rail service is provided three times weekly.

Present economic activities in the area include some commercial fishing and trapping, tourism and forestry. Fishing on nearby Kississing Lake is divided between commercial and recreational interests, and is fished by licensees from outside the community. In 1980-81 fishermen on this lake caught 51,321 lbs. of fish valued at $16,721. Kisseynew Lake, approximately 40 kilometers to the south-west of the community, is fished by the same licensees. In 1980-81, fishermen on this lake caught 55,612 lbs. of fish valued at $21,546. In 1979-80, 38 trappers harvested fur valued at $60,212 from the Sherridon R.T.L. zone. Two tourist lodges - Kississing Lodge and Red Wood Lodge are located on Kississing Lake, and are a major source of employment to local residents in season. There are two logging camps in the area, one at Jungle Lake, 7 miles north of the community, and the other at Kisseynew Lake, which produce pulpwood for the Manfor plant at The Pas.

Sherridon is governed by an elected Mayor and Council under Manitoba's Northern Affairs Act.

Housing

There are approximately 37 households in the community.

Local, Prov., Federal Government Services

Fire Protection: There is a new hall, equipped with a siren, under construction, and a new truck with equipment being purchased this year.

Police Service: Provided by the R.C.M.P. detachment in Cranberry Portage.

Ambulance Service: Patient Air Transportation (P.A.T.).

Hospital/Nursing Station: The nearest hospital is at Flin Flon. One LPN nurse serves the community on a once-a-week basis.

Schools

Frontier School Division maintains a school at nearby Cold Lake where 1 principal, 1 teacher, 1 aide and 2 support staff teach 38 pupils from pre-school to Grade 7. Attendance at the school is as follows:

Grades	No. of Students
Pre-school	0
Grades 1-6	31
Grade 7	7
Total:	38

Utilities

Hydro: Land line hydro power with 45 hookups, of which 22 are for heat and light and 23 for light only. Residential rates per month: Service Charge - $4.10; first 200 kwh - 4.74¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with 11 hookups.

Water Supply: Water obtained from Sharlette Lake and Kississing Lake by pumps on each and chlorinated.

Sewage Disposal: Outdoor privies.

Garbage Disposal: Weekly garbage pickups, delivered to community operated garbage dump.

Recreation

Community hall used for socials, bingos, weddings, etc. and with a capacity of 300 people, together with an open air skating rink, school gymnasium and small playground.

Transportation/ Accommodation

The C.N.R. provides surface transportation to the community three times weekly and charter float plane service can be arranged. Overnight accommodation and restaurant services are available at the tourist lodges in season.

South Indian Lake

1982 Community Report

South Indian Lake, a community of 842 people is located on an arm of South Indian Lake which joins South Bay to the main body of the lake. Approximately two-thirds of the residents are members of the Nelson House Indian Band, many of whom are descendents of the early settlers who came to the area from the Nelson House Reserve in the early 1920's. The townsite is approximately 480 air miles northwest of Winnipeg; 80 air miles northwest of Thompson and 40 air miles east of Leaf Rapids. An all-weather road extends eastward from Leaf Rapids and PTH 391 to the south shore of South Bay. A ferry, traversing South Bay, connects the community to this road.

The water diverted from the Churchill River by Hydro development passes by the community on its way to the Nelson River generators. As a result the community which originally stretched along both sides of the Channel has now been located on the east side only. The assessed value of real property for taxation purposes is $343,640. Relocation has resulted in the construction of many new houses, a new school, town centre, and water system.

The most important economic activity is commercial fishing with trapping also contributing to the income of residents. In 1980-81, 116 fishermen delivered 956,866 lbs. of fish worth $386,957. Some 17 lakes are harvested by South Indian Lake fishermen. In 1979-80, 144 trappers caught fur valued at $165,044 in the South Indian Lake R.T.L. zone. Incomes of both fishermen and trappers are augmented by compensation payments from Manitoba Hydro for damage caused to these resources by the flooding of the Lake.

Frontier (#48)	29.6
Business Tax:	10%

Recreation Facilities

The community has one hall with a capacity of 120 persons. There is also an outdoor skating rink, ball field, playground, beach area and gym at the school.

Housing

There are approximately 135 households in the community.

Utilities

Hydro: Land line hydro power with a total of 145 residential connections of which 109 are for heat, light and power. Residential power rates per month: Service Charge $4.10; first 200 kwh - 4.74¢/kwh; addition power - 2.53¢/kwh.

Telephone: Land line with dial phones - 105 hookups.

Water Supply: Water drawn from Churchill River system via 1400' underground feed to wet well in pump house. Forced feed to water treatment and chlorination system. Store, nursing station, school, teacherages, restaurant, laundromat, hall, detention facility and fire hall served by direct line service. Individual homes served by water delivery truck. Operating and maintenance costs responsibility of S.I.L. Council. Anticipated future requirement - line service to Council office.

Sewage Disposal: Gravity flow system servicing store, nursing station, school, teacherages and restaurant. Sewage treatment plant located in town centre on lot across the road from the Council office. Community Council responsible for operating and maintenance. Individual homeowners use outside toilets.

Garbage Disposal: Garbage dump constructed in 1975. It has recently been renovated. Garbage pickup and disposal is handled by a local entrepreneur under contract to the Council. The Community Council is responsible for operating and maintenance costs.

Local Services

Fire Protection: There is a fire hall with a siren, a truck, portable pumps and related equipment.

Police Services: The community employs one police constable. In addition the R.C.M.P. provide service within the community. A detention facility has been completed and is now operational.

Ambulance: Patient Air Transportation (P.A.T.) from Lynn Lake or Leaf Rapids.

Nursing Station: Nursing stations with 5 beds and staffed by two nurses.

T.V. - Radio Reception: C.B.C. T.V. - Thompson, C.H.T.M. radio.

Schools

Oscar Blackburn Frontier school accommodates grades from preschool through Grade 12 ith 1 principal, 18 teachers, 2 aides and 5 support staff. Enrollment is as follows:

Grades	Number of Students
Preschool	59
1-6	204
7-9	29
9-12	13
Total:	305

Transportation/ Accommodation

Motel with three rooms and housekeeping, restaurant, taxis, three scheduled flights per week - air service. The community has an airstrip with a 3000' gravel strip and terminal building. Good docking facilities available on the lake for floatplanes.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which will allow them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. New development can now build on this base.

DEPARTMENT OF NORTHERN AFFAIRS

St. Theresa Point

1982 Community Report

Two closely related and adjoining, but independent communities are known as St. Theresa Point. One is located on the St. Theresa Point Indian Reserve, the second on nearby Provincial Crown Land. The Reserve community is under the jurisdiction of the federal government's Department of Indian Affairs and Northern Development, the second by the Provincial Department of Northern Affairs. The two communities with a combined population of 1,234 in 1982, are inter-dependent on each other for some services. Each has its own system of local government and community council budget. All information in this report is for the non-Treaty community unless otherwise stated.

These communities are located on the western shore of Island Lake, immediately south of Waasagomach Indian Reserve. The area is within the Pre-Cambrian Shield region of Manitoba and quite heavily forested. Thompson lies 251 kilometers to the north-west and Winnipeg 400 kilometers to the south-west. Norway House, the base for hospital and R.C.M.P. services, is 171 kilometers due west. There are no land transportation systems to the communities with the exception of winter roads in season. The communities are served by an airstrip. Regular scheduled services are available from Stevenson Island, 20 kilometers distant across the lake.

Economic activity is based on fishing, trapping and the service industry. In 1980-81, 41 fishermen from St. Theresa Point delivered 204,747 lbs. of fish with a value of $81,476. In the 1979-80 season, 265 trappers harvested fur valued at $426,434 from the Island Lake R.T.L. zone.

Residents of St. Theresa Point are represented by a contact person in negotiations with government under Manitoba's Northern Affairs Act.

Facilities located on Reserve.

Local, Prov., Federal Government Services

Fire Protection: None

Police Services: The R.C.M.P. provides service from Norway House.

Ambulance Service: Patient Air Transportation (P.A.T.). There is a nursing station on the Reserve.

Hospital: The nearest hospital is located at Norway House. There is a nursing station in the community.

Schools

Children attend the D.I.A.N.D. school on the Reserve. A teaching staff of 26 teaches students from pre-school through Grade 10. Enrollment is as follows:

Grade	No. of Students
Pre-school	90
Grades 1-6	290
Grades 7-9	130
Grade 10	40
Total:	550

Housing

There are approximately 14 households in the community.

Utilities

Hydro: Diesel electric plant supplied and maintained by Manitoba Hydro, supplying 15 amp-120 volt power to 241 customers in the two communities. Residential power rates per month: Service Charge - $8.00; first 250 kwh - 5¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with dial telephones and 284 hook-ups in the two communities, an increase from 170 hook-ups of last year.

Water Supply: Supplied under agreement with the St. Theresa Reserve Band Council and D.I.A.N.D.

Sewage Disposal: Pit privies and solid waste disposal area.

Garbage Disposal: Designated disposal area.

Transportation/ Accommodation

There are no all-weather roads into the community but there is a winter road in season. There are no scheduled air services but a landing strip and dock provide access for chartered aircraft access. There is no public overnight accommodation.

Thicket Portage

1982 Community Report

Thicket Portage, a community with a population of 198 in 1982, is located along the C.N. Bay Line between Landing Lake to the south and Wintering Lake to the north, some 48 kilometers south of Thompson and 256 kilometers by rail north-east of The Pas. The railway provides the only surface transportation to the outside, linking the community to these cities as well as Wabowden, 60 kilometers to the south-east.

The community used to be known as Franklin Portage and is one of the oldest inhabited spots in the area. It was used by the Franklin expedition and is in the portage route used to connect the Nelson River system with Landing Lake and the Burntwood River system from Wintering Lake.

Thicket Portage is located in an area suitable for both forestry and tourist development and is adjacent to the Wabowden-Thompson Nickel belt. Lack of road access has limited development. The population has been declining slowly.

Fishing and trapping are the primary economic activities, supplemented by employment on the C.N.R. line and the service industry. In 1980-81, 12 fishermen landed 52,001 lbs. of fish valued at $27,147. In 1979-80, 35 trappers caught fur with a value of $78,986 in the Thicket Portage R.T.L. zone.

A diesel plant provides the community with 15 ampere - 120 volt electric service. The Manitoba Telephone System has installed a land line and dial telephone system. There is a 2,800 ft. clay emergency airstrip. Float plane service is available in Wintering Lake with good docking facilities at the east end of the Lake.

The community has been governed since March, 1989 by an elected Mayor and Council under Manitoba's Northern Affairs Act.

Business Tax:	10%

Housing

There are approximately 39 households in the community.

Local, Prov., Federal, Government Services

Fire Protection: There is a new firehall, a truck, and related equipment. There is a siren on the hall. The Fire Department is active.

Police Service: The community is served by the R.C.M.P. from Wabowden.

Ambulance Service: P.A.T. from Thompson with helicopter at night and plane in daylight.

Hospital/Nursing Station: One community health worker and one nurse half day per week; doctor visits twice per month. No beds in station.

Schools

Frontier School Division maintains a school in the community staffed by 1 principal, 3 teachers, 1 teacher's aide and 4 support staff teaching 72 children from pre-school through grade 8. Numbers of students attending are as follows:

Grades	No. of Students
Pre-school	13
1-6	48
7-8	11
Total:	72

Transportation/ Accommodation

Three beds available in teacherage, no restaurant. Passenger rail service three times weekly and emergency airstrip as well as float plane dock for aircraft charter service.

Utilities

Hydro: Diesel electric plant maintained by Manitoba Hydro, supplying 15 ampere-120 volt power to 70 connections. Residential power rates per month: Service Charge $8.00; first 250 kwh .05¢/kwh; additional power 2.53¢/kwh.

Telephone: Land line with dial phones and 37 connections.

Water Supply: Water pumped from Landing Lake, chlorinated and pressurized to two stand pipes. Annual usage - 1,103,390 gallons. Line heat - traces to those stand pipes. Water good. Pump house rewired, new pumps and plumbing in 1980. School, nursing station have water pumped in. Greenhouses also use water from stand pipe. Daily maintenance responsibility of community council who have 2 public works employees. Major repairs responsibility of Northern Affairs.

Sewage Disposal: Private residential disposal by pit privy. Nursing Station and two C.N. residences have septic tanks and fields. Frontier School uses sewage lagoon.

Garbage Disposal: Old garbage dump in use until access road to new area cleared. Regular pickup service to all community using Council owned half-ton truck or tractor pulled trailer. Approximately 75% of homes burn some garbage in barrel burners. New garbage disposal area under construction. Council responsible for site.

Recreational Facilities

The community has one hall in good condition with a capacity for 150 people and used for council meetings, dances, films, bingos, community suppers and elections. Other facilities include outdoor hockey and skating rink; pool hall; baseball diamond; beach area; local park; and a playground. School gymnasium can be used at night.

MANITOBA
DEPARTMENT OF NORTHERN AFFAIRS

Wabowden

1982 Community Report

Wabowden, a community of 650 people near the geographic centre of Manitoba was first located at Setting Lake. With the arrival of the railroad in the 1920's it was relocated to its present site on Bowden Lake. The historic ties with Cross Lake are quite strong and many Wabowden families originated there. When the Manibridge mine was in full operation in the early 1970's the population increased to about 1,051, declining to its present level when the mine closed in 1976.

The community stretches along the irregular shoreline of Bowden Lake for about 1.5 miles and is one-half mild wide at the centre. The Canadian National Railways Bay Line bisects the community. The all-weather Provincial Road No. 6 connects the community to PTH No. 391 which provides access to Thompson, 66 miles to the east; to The Pas, 177 miles to the west and to Winnipeg via PTH No. 6 some 350 miles to the south.

Wabowden is located in the southern part of the Manitoba Nickel belt and a number of ore bodies are known to exist near the community. One of these was mined by Manibridge Nickel Mines Ltd. from 1970 to 1976 when operations ceased. A logging operation started in 1972 at Sipiwesk, 10 miles to the west of the community to provide wood to the Manfor plant at The Pas.

Wabowden is also located in the "Wabowden Clay Belt", an area of soils with some potential for agriculture. An agricultural research station was operated from 1956 to 1965 in the community. The fishing industry is also a major source of employment. In 1980-81, 14 fishermen delivered 1,018,851 lbs. of fish at a value of $534,318. In 1979-80, 33 trappers caught fur valued at $129,311 in the Wabowden R.T.L. zone.

Housing

There are approximately 147 households in the community.

Recreation Facilities

A major recreation complex is located in the community housing a skating rink, curling rink and multipurpose area. There is also a local park, a playground, beach area and ball diamond.

Utilities

Hydro: Land line hydro power with 263 hookups, 145 of which are for lights and power only and 118 for light, power and heat. Residential power rates per month: Service Charge $4.10; first 200 kwh - 4.74¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with 279 dial phones hooked up, an increase from the 160 hook-ups of last year.

Water Supply: Water pumped from Bowden Lake to treatment plant. Water is chlorinated, filtered and pumped into reservoir from where it is pumped into waterline. Facilities and water quality are excellent. O & M costs are considered to be minimal. Most of the homes are now supplied directly by piped municipal water and sewer system, with hook-ups available for those not yet serviced.

Sewage Disposal: Most homes hooked up to gravity flow system emptying into a lift station from where it is pumped to lagoon, half mile south of community. Lagoon capacity sufficient for 1,000 people. Lift station facilities have been upgraded.

Garbage Disposal: Garbage dump rebuilt in 1980. Located one mile north of Wabowden on P.T.H. #391. Trench 20' × 200' approximately 5' deep, designed for non-bulk items. Areas set aside for bulky metal items. Front of trench area fenced for burning purposes. Garbage pickup done on a twice weekly contract basis. Facilities excellent but abused by some individuals dumping garbage which causes maintenance costs to rise. Garbage burnt and levelled once a week.

Local, Prov., Federal Government Services

Fire Protection: The community has a fire hall. A truck is expected in October.

Police Station: Police protection is provided by the R.C.M.P. who have ten officers and staff resident in the community.

Ambulance Service: Ambulance service is provided from within the community.

Hospital/Nursing Station: There is a nursing station located in the community staffed by 2 nurses, one fulltime and one parttime. A doctor is in attendance one day every two weeks.

Schools

Frontier School Division maintains a school in the community with 1 principal, 14 teachers, 3 aides, and 9 support staff teaching students from preschool to Grade 12. Numbers of students attending are as follows:

Grades	No. of Students
Pre-school	35
Grades 1-6	107
Grades 7-9	52
Grades 10-12	32
Total:	226

Transportation/ Accommodation

There is bus service and rail service available into the community, as well as Cross Lake air service. Hotel and motel accommodation is available.

Warrens Landing

1982 Community Report

Warrens Landing, a community of 26 people, is located along the north end of Lake Winnipeg at the source of the Nelson River, approximately 48 kilometers south of Norway House and 408 kilometers north of Winnipeg. Most residents are members of the Norway House Band and the Native tongue is Cree. The settlement is named after John Warren, a Hudson's Bay Company gentleman who came out to the mossy point with the second party of the Selkirk settlers in 1812.

The community lies within the Precambrian Shield region of Manitoba which has been modified by glacial Lake Agassiz which once covered the area. The area is relatively flat, with many marshes and small lakes as well as channels of the Nelson River. Forests in the area are limited and fishing and trapping are the primary sources of economic activity.

There are no roads into Warrens Landing. Access and egress are gained by float-mounted or ski-mounted aeroplane, by boats and skidoos.

Warrens Landing residents are represented by an elected Community Chairman and Local Advisory Committee under Manitoba's Northern Affairs Act.

Population 1982

Age Group	Warrens Landing
Children:

Tax Structure

Community not assessed.

Recreation Facilities

There is a community hall with a capacity of 40, in excellent condition, available for dances, meetings, etc. There is also a small playground for children and a beach area.

Sources of Information

Source data for these reports was obtained with help from Northern Affairs field staff, together with data provided by Manitoba Hydro, Manitoba Telephone System, F.F.M.C., Frontier School Division, Duck Mountain School Division, the Department of Indian Affairs, and the Department of Natural Resources. Prepared by Department of Northern Affairs Development Services Branch.

Local, Provincial, Federal Gov't Services

Fire Protection: There is a portable pump in the pumphouse that can reach any house in the community.

Police Services: The closest R.C.M.P. station is at Norway House. There is no patrol service.

Ambulance Service: Not available.

Hospital/Nursing Station: None. Doctors and nurses and hospital are available at Norway House.

Schools

There is a Frontier School with 1 teacher acting as principal, and 2 support staff teaching students, from Grades 1 to 8. Enrollment is as follows:

Grades	No. of Students
Pre-School	2
Grades 1-6	4
Grades 7-9	4
Total:	10

Transportation/ Accommodation

There is chartered air service by float planes, or chartered boat service into the community.

Utilities

Hydro: Land line hydro power, with a total of 600 hook-ups in Warrens Landing and Norway House. Residential power rates per month: Service Charge - $4.10; first 200 kwh - 4.74¢/kwh; additional power - 2.53¢/kwh.

Telephone: There are 3 public pay phones available.

Water Supply: Water is pumped from the Nelson River by submerged floating intake. It is chlorinated and filtered and is available in the pump house only. There is no delivery service. The Frontier School is directly connected to the pump house.

Sewage Disposal: There is no sewage disposal system in place. Individual residences use the privy method. Frontier School has a septic field.

Garbage Disposal: There is no landfill site. Individual households dispose of waste by burial and burning. A new waste disposal is to be constructed in 1982.

Housing

There are approximately 8 households in the community.

Potential Uses for Information

Community Reports have been developed for the purpose of providing residents with a tool which will allow them to participate more fully in the development of their community. In addition, the Reports will enable Department of Northern Affairs staff and other government and private agencies to assist communities with their development plans. Key people in the community have been identified; the components of community budgets tabulated; populations analyzed for education, training and employment planning; utilities and services identified and described together with current sources of economic development and employment. New development can now build on this base.

DEPARTMENT OF NORTHERN AFFAIRS

Waterhen
1982 Community Report

Waterhen, a community with a population of 160 residents in 1982 is situated on the east shore of the Waterhen River midway between Waterhen Lake and Lake Manitoba and 8 kilometers south of the Waterhen Indian Reserve. Three other communities are located nearby which include Skownan, the Reserve and Mallard. Winnipegosis is the nearest service centre 78 kilometers to the south-west although there are several stores in the area notably at Skownan which also serves as a fish collection point.

Waterhen is connected to P.T.H. #6 by P.R. 328 which has been built just north of Lake Manitoba. P.R. #328 connects with P.R. #276 at Waterhen which allows access to the south through Toutes Aide and west via P.R.'s #269 and 364 to Winnipegosis. Partly as a result of these highway connections a significant tourist industry has developed at Waterhen with 3 companies offering services.

Other economic activity in the area includes commercial fishing, trapping and some livestock production. The Waterhen Ranchers Association has been formed to assist this latter activity and Crownlands have a land development program operating at present. The community is located in the Waterhen R.T.L. zone. In 1980-81, 8 winter fishermen delivered 43,739 lbs. of fish valued at $23,598.

Waterhen has been governed since May, 1970 by an elected Mayor and Council under Manitoba's Northern Affairs Act. The Frontier School for the area is also located in the community.

Housing

There are approximately 54 households in the community.

Local, Prov., Federal, Government Services

Fire Protection: There is an extension onto the pumphouse for the 2-bay hall, 2 trucks (one new and one used). The Fire Department is active. Some of the members have pagers which are called by a base station during emergencies.

Police Protection: There is a community council appointed police constable and additional service is provided by the R.C.M.P. out of Winnipegosis.

Ambulance Service: Community owned and operated, serving Waterhen, Mallard, Salt Point, Meadow Portage and Crane River. Also on-call to Waterhen Indian Reserve.

Hospital/Nursing Station: Hospital services are available in Dauphin or Ste. Rose. There is a dental clinic within the community.

Senior Citizens' Home: There is an elderly persons' duplex housing unit located in the town site.

Transportation/ Accommodation

All-weather road connections via P.R.'s #328 and #276. Overnight accommodation in tourist cabins in season. Communities served by Rorketon Freight Lines.

Utilities

Hydro: Land line hydro power with 126 hookups in Waterhen, Mallard, and Homebrook of which 61 are for light and power only and 65 are for light, heat and power. Residential power rates per month: Service Charge - $8.00; first 250 kwh - 5.00¢/kwh; additional power - 2.53¢/kwh.

Telephone: Land line with dial telephones and 173 hookups on the Waterhen Exchange.

Water Supply: Water pumped from Waterhen River into 7,000,000 gallon reservoir, chlorinated and pumped to standpipes. Water line to Frontier School and three homes tapped into line. At present there is no charge for water. In the past year the line was extended to the subdivision.

Garbage Disposal: A new 400' × 400' fenced garbage dump with burning area and wet sewage dumping pit constructed in 1979.

Recreation Facilities

There is a community hall in good condition which will provide accommodation for 200 people; an outdoor skating rink, ball field, local park, playground at the school as well as the gymnasium at the school. A beach area is being developed at the present time.

Schools

The Frontier School serving Waterhen and adjacent communities is located in Waterhen where 1 principal, 12 teachers, 2 aides and 6 support staff teach students from pre-school through Grade 9. Enrollment is as follows:

Grade	No. of Students[1]
Pre-school	25
1 - 6	148
7 - 9	50
Total:	223

Note[1] - Includes students from several communities.
